

COLORADO RIVER PUT UNDERGROUND FOR HOOVER DAM

Sent Through Two 50-Foot Wide Tunnels for a Mile at Site of Huge Power and Water Project.

150,000 POUNDS OF DYNAMITE USED

3000 Charges Exploded Within Two Minutes—Excavation for Dam Will Start at Once.

By the Associated Press.
BOULDER CITY, Nev., Nov. 14.—The Colorado River was flowing underground for nearly a mile, today, giving up its bed so Hoover dam can be built.

One hundred and fifty thousand pounds of dynamite were used yesterday in blasting two diversion tunnels through the mile-high canyon wall.

Completion of the earthen dam to divert all waters through two Arizona side tunnels, each 50 feet wide, was a rush job, lasting through the night to noon today.

During the night about half the power flow was pouring through the outer diversion tunnel, the remaining flow rushing under a pile of great trucks dumping rock at the rate of 100 tons a minute to complete the barrier.

First Step Completed.
This marks the accomplishment of the first major step in the \$165,000,000 project to electric power, flood control in the Imperial Valley, reclamation of vast areas and development of domestic water supply for southern California.

Three thousand holes, each filled with 50 pounds of dynamite, were drilled into canyon walls on both Arizona and Nevada sides for a distance of about a quarter mile.

Like a machine gun with a caliber of a 15-inch rifle, detonations sent the air and great clouds of dust surging down the canyon in waves extending a mile high.

For more than a minute, that seemed like hours, detonations came as the side of the canyon walls fell into the river bed.

At the same time minor explosions blew out a temporary coffer dam at the outer diversion tunnel intake, and of an earth barrier at the tunnel outlet. Before the smoke and powder fumes cleared from the canyon, a large volume of muddy water surged down through the tunnel as the river took to its newly made subterranean course.

Year Ahead of Schedule.
It was many minutes before the deaf sound that all danger of falling rock was past. Then with a crash more than a thousand workers went to their tasks, with platforms of big steam shovels biting into loose rock. Streams of dump trucks like ants moved from shovels to the earth dams to finish the barriers that will keep all water out of the dam site.

Excavation for Hoover Dam will proceed immediately. Walker R. Young, Reclamation Service construction engineer, and Frank T. Crowe, chief field engineer of the six companies, general contractors, said that work will continue to be pushed with all speed. Already they are a year ahead of schedule.

WESTERN POWER, LIGHT CO. PLACED IN RECEIVERSHIP
Action Taken as to Utility Which Serves 275 Middle Western Communities.

Special to the Post-Dispatch.
CHICAGO, Nov. 14.—The Western Power, Light & Telephone Co., which operates 19 public utilities in 275 Middle-Western communities, was thrown into an equity receivership before Federal Judge James W. Wilkerson today.

Robert L. Tudor was named to handle the affairs of the concern, which had been suppressed, was filed on behalf of a group of noteholders to the amount of \$150,000.

J. A. Kennedy, president, consented to the receivership as a means to prevent law suits which might jeopardize assets. He stated that normal income of the company was \$3,500,000 annually.

The petition cited that the company defaulted Aug. 1 on a bond issue of \$455,892 and that \$3,932,000 calls due next February and \$1,660,000 in December, 1932.

CALIFORNIA GOVERNOR TO PARDON VIOLATORS OF STATE PROHIBITION ACT

By the Associated Press.
SACRAMENTO, Cal., Nov. 14.

REPLYING to a query sent him by a New York newspaper, Gov. James Rolph Jr. stated today he intended to pardon all violators of the Wright prohibition act incarcerated in California as soon as the results of the Nov. 8 vote repealing the law are reported to him by the Secretary of State.

Three thousand holes, each filled with 50 pounds of dynamite, were drilled into canyon walls on both Arizona and Nevada sides for a distance of about a quarter mile.

Like a machine gun with a caliber of a 15-inch rifle, detonations sent the air and great clouds of dust surging down the canyon in waves extending a mile high.

For more than a minute, that seemed like hours, detonations came as the side of the canyon walls fell into the river bed.

At the same time minor explosions blew out a temporary coffer dam at the outer diversion tunnel intake, and of an earth barrier at the tunnel outlet. ROBBERS WOUND BANKER
Escape With Money From Centerville (Kan.) Depository.

By the Associated Press.
PORT SCOTT, Kan., Nov. 14.—The Centerville Bank of Centerville, Kan., was held up and robbed of an undetermined amount of money this afternoon by five men bearing a Kansas license.

The September statement showed \$16,049,428.62 in resources. Capital stock was \$600,000 and surplus \$1,500,000.

Six Banks in Oklahoma Are Closed.
By the Associated Press.
OKLAHOMA CITY, Nov. 14.—Closing of six Oklahoma banks, the largest the Shawnee National, with combined deposits of over \$3,000,000, was announced today by the State Banking Department.

State Bank Commissioner W. J. Barnett said the affiliated banks were closed following inability of H. T. Douglas, Shawnee, their owner, to collateralize approximately \$1,250,000 in loans as demanded by Eastern creditors.

SIR JOHN MULLEN'S DAUGHTER DIVORCED

Princess Imeretinsky Charges Russian Husband With Misconduct.

By the Associated Press.
LONDON, Nov. 14.—Princess Imeretinsky, English wife of the Russian nobleman and widely acclaimed as one of England's most beautiful women, has been granted a decree nisi of divorce from Prince George Imeretinsky on the grounds of misconduct.

She is the daughter of Sir John Mullen, distinguished financier, and the younger sister of Mrs. Elvira Barney, who a few months ago was acquitted of a charge of murdering Thomas William Scott Stephens.

Both men were arrested Saturday and Pagan said they told her the girl was lured to a country road, where they said she was fatally beaten on the head with a heavy tire tool. Unconscious, according to the alleged confession, the girl was placed in the car, which was wrecked in a ditch.

Following the filing of murder charges, the brothers were removed to another county for safe keeping.

**CITY HALL AT LAUSANNE
BOMBED; 7 HURT; 15 HELD**
Internal Machine Apparently Fired by Firemen Who Turned Hose on Demonstrators.

By the Associated Press.
LAUSANNE, Switzerland, Nov. 14.—Police said the bombing explosion of a bomb last night in front of the City Hall.

Seven persons, one of them a woman, were injured in the explosion. Police said the bombing apparently was directed against firemen in the City Hall fire station, an unemployment demonstration last week.

"I am loath to proceed with recommendations to the Congress until I can have an opportunity to confer with you personally at some convenient date in the near future."

Mr. Hoover spoke also of the World Economic Conference and the Arms Conference efforts which would continue on into the Roosevelt administration, upon which "an interchange of views would be in the public interest."

In his telegram Mr. Hoover related his debts stand as opposed to "cancellation in any form," but said, "we should be receptive to proposals from our debtors for tangible compensation in direct payment, in expansion of markets for the products of our labor and our farms."

GOVERNMENT REORGANIZATION.
The revised schedule of Mr. Hoover's return trip to the White House puts him in Kansas City at 1:39 a. m. Tuesday and St. Louis at 8:53 a. m. He will arrive in Washington at 7 a. m. Wednesday.

In addition to his annual message to Congress and his budget message Mr. Hoover hopes to send to Capitol Hill detailed plans for the reorganization of Government.

Thousands of Yumans greeted President Hoover when his special train carrying him back to Washington stopped at Yuma, Ariz., 15 minutes. The President appeared on the rear platform, but did not address the gathering, remarking, "I have made enough speeches already."

**RADIO CORPORATION SEEKS
TO SETTLE ANTI-TRUST SUIT**
Expected to Present Proposal for Friendly Adjustment When U. S. Action Goes to Trial Tomorrow.

By the Associated Press.
WASHINGTON, Nov. 14.—A settlement of the Government's anti-trust suit against the Radio Corporation of America may be reached within the next few days.

Officials at the Department of Justice today said new proposals for friendly settlement had been submitted to them.

Their nature, however, will not be disclosed until the case comes up tomorrow in the Federal District Court at Wilmington, Del.

BROTHERS NAMED AS GIRL'S SLAYERS IN INSURANCE PLOT

Accused at Sulphur, Ok., of Murdering Young Woman, 15. After One of Men Married Her.

SHE WAS SLUGGED,
LEFT DEAD IN AUTO

Pair Admit Slaying but Authorities Continue Investigation Into Reported \$5000 Policy.

By the Associated Press.
SULPHUR, Ok., Nov. 14.—Claud Oliver, 23 years old, and George Oliver, 18, farmer brothers, were charged today with the murder of Claud's 15-year-old bride. The girl's body was found pinned under her husband's automobile, two miles south of Davis, on Nov. 3. Her head was crushed.

Officers said both brothers had made statements and that they were investigating clues indicating that the young wife's death was caused in a pre-nuptial scheme to collect insurance on her life.

The girl, formerly of Wynnewood, was married to Claud Oliver in September. Sheriff Bosa Johnson and E. W. Fagan, County Attorney, said they had learned of an alleged plan in which the brothers agreed that one of them should marry the girl and insure her life for \$5000.

Both men were arrested Saturday and Pagan said they told her the girl was lured to a country road, where they said she was fatally beaten on the head with a heavy tire tool. Unconscious, according to the alleged confession, the girl was placed in the car, which was wrecked in a ditch.

Following the filing of murder charges, the brothers were removed to another county for safe keeping.

SWISS RELEASE U. S. STUDENT
Charles Herreshoff Must Leave Country at Once.

By the Associated Press.
GENEVA, Nov. 14.—Charles Herreshoff, 19 years old, an American medical student, was released from detention today on condition that he leave Switzerland before morning.

He was arrested with 30 others on Sunday during a demonstration which resulted from the killing of 12 persons in a political disorder last week.

**COLD WAVE COMING
PROBABLY RAIN OR
SNOW LATE TONIGHT**
THE TEMPERATURES.

Official forecast for St. Louis and vicinity: Unsettled tonight and tomorrow, probably rain or snow beginning late tonight; lowest temperature tonight about 40; much colder by tomorrow afternoon; rain or snow; moderate cold wave tonight.

Missouri: Unsettled tonight and tomorrow; rain or snow probable; except snow in northwestern portion; colder; moderate cold wave tonight.

Illinois: Unsettled tonight and tomorrow; some snow probable except rain changing to snow flurries in south portion; much colder except tonight in extreme southeast portion; moderate cold wave tonight or tomorrow in central and north, and tomorrow in extreme south portion.

Sunset, 4:44. Sunrise (tomorrow) 6:44.

Zero Weather in North Dakota.
By the Associated Press.
BISMARCK, N. D., Nov. 14.—The first zero weather since last winter came to North Dakota today, accompanied by light snow in some areas. Devils Lake, Minot and Williston had zero readings. Elsewhere temperature ranged up to 11 degrees above.

ROOSEVELT LIKELY TO ACCEPT HOOVER'S REQUEST FOR WAR DEBT CONFERENCE

PRESIDENT DUE AT WHITE HOUSE EARLY WEDNESDAY

Lays Plans on Train for Expected Talk With Roosevelt on Debts, Arms, Economic Parleys.

CONSIDERS QUESTIONS GOING TO CONGRESS

Plans to Submit Details for Government Reorganization—Arrives in St. Louis Tuesday Morning.

By the Associated Press.
ON BOARD PRESIDENTIAL SPECIAL ENROUTE TO WASHINGTON, Nov. 14.—President Hoover's drive homeward today led him across four states toward a projected White House conference with Franklin D. Roosevelt upon the course to be followed by the nation on requests for suspending war debt payments.

Up to the crossing from New Mexico into Texas and over part of Oklahoma, however, Mr. Hoover still awaited a reply from President-elect Roosevelt to his invitation to confer this week upon the request of foreign debtors.

A watch was to be kept at Dalhart, Tex., and Liberal, Kan., during the afternoon for possible incoming messages.

The President's telegram to the New York Governor at Albany was sent Saturday night and made public aboard this train yesterday.

It is learned authoritatively that he would continue on his way to mind for dealing with the situation as it touches individual nations, but desires a co-operative conference with the President-elect before taking action.

Arms and Economic Conferences. "I am prepared," he wired to Gov. Roosevelt, "to deal with the woman, was arrested by President Hoover in the telegram to Gov. Roosevelt, dispatched from the train on which he is returning to the White House."

"If there is to be any change in the attitude of Congress it will be greatly affected by the views of those members who recognize you as their leader," the Chief Executive said. "I am loath to proceed with recommendations to the Congress until I can have an opportunity to confer with you personally."

Friends expect Gov. Roosevelt to accept the invitation.

Stimson's Statement.
Meanwhile, Secretary Stimson gave out the news that no other nations had yet sent notes supporting the request of Great Britain and France for reconsideration of the debt. No replies have been sent to Great Britain and France, and further discussions with those powers are not expected before the arrival of President Hoover.

It was pointed out that no change has occurred in the administration policy that each foreign power shall discuss its obligations separately with the United States Government. Consequently, there is no reason to expect a general conference immediately in which all European debtors will participate.

The British and French notes, both asking for suspension of Dec. 15 payments of \$95,550,000, and \$19,251,438, respectively, were considered only the first of similar requests to be made by all America's war debtors for a revision of obligations. December payments are the first due since expiration of the moratorium.

Others Hold Back Payments.
In September Estonia, Latvia and Poland took advantage of a 90-day notification clause in the debt funding agreements and told this Government principal payments aggregating over \$3,000,000 would not be made in December. Last week Hungary served notice she could not meet her December installment and Greece failed to make a payment then due.

All of France's December payment is in interest which, under the funding agreements, cannot be postponed. England's installment includes \$24,000,000 of principal.

Britain's communication was a note signed by Ambassador Sir Ronald Lindsay. Ambassador Claudio Montenegro, who is in St. Louis, is expected to arrive here today.

Under the illumination of flood lights and a full desert moon he saw workmen rushing final preparations for his arrival.

FRANCE, BRITAIN SEEK TO DEFER DEC. 15 PAYMENT

This Is the First Due Since Moratorium Expired.—They Ask for Discussion of Revision.

CITE REDUCTION IN REPARATIONS

Other Nations Expected to Take Similar Action Soon—Senator Walsh Suggests Extra Session.

By the Associated Press.
WASHINGTON, Nov. 14.—Great Britain and France, each owing \$4,000,000,000 to the United States, today sought relief from further payments pending an international conference on world debt problems.

Publication of their formal requests, made to a Government already on record against further reduction or cancellation, coincided with a telegram from President Hoover to President-elect Roosevelt, inviting his successor to a conference on the subject—an act without exact precedent in all presidential history.

It brought also suggestions of immediate congressional consideration. Senator Walsh (Dem., Mont.), said that if it becomes necessary to dispose of the matter at once a special session of Congress should be called.

Representative Ragon (Dem., Ark.), who drafted the declaration against further reduction which Congress attached to the Hoover one-year moratorium, on inter-Governmental debts, recommended an immediate meeting of the House Ways and Means Committee to consider the question.

Hoover's Telegram to Roosevelt. This previous congressional declaration was stressed by President Hoover in his telegram to Gov. Roosevelt, dispatched from the train on which he is returning to the White House.

"If there is to be any change in the attitude of Congress it will be greatly affected by the views of those members who recognize you as their leader," the Chief Executive said. "I am loath to proceed with recommendations to the Congress until I can have an opportunity to confer with you personally."

Friends expect Gov. Roosevelt to accept the invitation.

NOTABLE ST. LOUISAN WHO IS GRAVELY ILL

ROBERT S. BROOKINGS.

R. S. BROOKINGS SERIOUSLY ILL IN WASHINGTON

Distinguished St. Louisan in Grave Condition With Chills and Fever—82 Years Old.

Post-Dispatch Bureau
201-205 Kellogg Bldg.
WASHINGTON, Nov. 14.—Robert S. Brookings, large donor to Washington University, St. Louis, and former head of the university corporation, is dangerously ill at his home here. He was stricken by chills and fever two weeks ago, and has since been confined to his bed.

He is attended by his wife, formerly Miss Isabel Valle January of St. Louis.

Mr. Brookings is 82 years old, and was for 22 years president of Washington University Corporation, before his resignation in June, 1928. For most of that period he was active in raising money and in business direction of the institution, of which he and his business partner, the late Samuel Cupples, were the chief builders.

Mr. Brookings' gifts of money and real estate to the university have been estimated at a total of \$6,000,000, aside from his bestowal of time and service.

In recent years, he has been actively interested in the Brookings Institution of Washington, a school of government and economics, the endowment of which he made a large contribution.

Advisers pointed out today that his acceptance of President Hoover's invitation would not mean he was prepared to take responsibility for any immediate decision on war debts but that he would be acting merely as a private citizen.

During the campaign, the Governor declared that the payment of war debts could be accelerated through the rehabilitation of international trade. He said this could be accomplished through a readjustment of trade and tariff regulations.

**HOOVER'S TRAIN TO STOP HERE
FOR BRIEF TIME TOMORROW**
Due to Arrive at 8:53 A. M.; President to Be Here 8 to 9 P. M.

Minutes.
President Hoover will be in Union Station yards for eight to 20 minutes tomorrow morning, while his special train, carrying him from Palo Alto to Washington, is being serviced.

The last car will be halted near the Eighteenth street viaduct. When servicing is completed, and locomotives changed, the special will be backed into the station momentarily, to turn around. It will depart at once over the Baltimore & Ohio Railroad.

The latest schedule calls for arrival here at 8:32 o'clock, but railroads think the special might get in as early as 8:40 o'clock. Republicans will be on hand to greet the President.

Headed by Dr. E. R. Clements, National Committeeman from Missouri; Richard B. Gruner, city chairman, and Mayor Miller will pay their respects to President and Mrs. Hoover. The public will not be admitted to the yards.

The President was in St. Louis for several hours the night of Nov. 4, delivering one of the last speeches in his unsuccessful campaign for re-election.

AMY JOHNSON SEEKS RECORD
By the Associated Press.
LYMPNE, England, Nov. 14.—Amy Johnson (in private life Mrs. J. A. Mollison) took off today on a flight to South Africa in an attempt to beat her husband's record at 4 days 17 hours 19 minutes.

PRESIDENT-ELECT PREPARES REPLY TO GO PROMPTLY TO PRESIDENT

Informal Announcement at Albany That Text Will Be Ready for Transmission Today, Publication Tomorrow.

MEETING INDICATED EARLY NEXT WEEK

Expected Roosevelt Will Ask Garner and Several Democratic Congressional Leaders to Go With Him to White House.

Special to the Post-Dispatch.
ALBANY, N. Y., Nov. 14.—President-elect Franklin D. Roosevelt will accept President Hoover's invitation to confer at the White House on international debts and other economic problems, it was indicated today by persons close to Gov. Roosevelt.

The President's invitation has been received by Gov. Roosevelt. It was announced informally at the Executive Mansion. It was said the President-elect would give out the text of his reply this afternoon, for publication in morning papers of tomorrow.

This course was assumed to have been taken by Gov. Roosevelt to allow preparation of the text and also to allow ample time for the reply to be in the hands of Mr. Hoover before being made public at Albany.

Gov. Roosevelt plans to leave for Warm Springs, Ga., Sunday or Monday, and it is thought by his associates that he will arrange to confer with President Hoover next Monday or Tuesday. It also is expected that he will request Vice-President-elect John N. Garner and several Democratic congressional leaders to accompany him to the White House.

Gov. Roosevelt has been in seclusion at the executive mansion since Thursday. At his last press conference, he was questioned concerning reports that he would be invited to the White House for a conference with the President. Gov. Roosevelt waived the question, saying that he would not be President until March 4.

Advisers pointed out today that his acceptance of President Hoover's invitation would not mean he was prepared to take responsibility for any immediate decision on war debts but that he would be acting merely as a private citizen.

During the campaign, the Governor declared that the payment of war debts could be accelerated through the rehabilitation of international trade. He said this could be accomplished through a readjustment of trade and tariff regulations.

**BELGIUM TO ASK
FOR DELAY ALSO**
By the Associated Press.
BRUSSELS, Belgium, Nov. 14.—Having been informed officially of the British and French proposals regarding international debts, the Belgian Government has decided to ask the American Government for a prolongation of the debt moratorium.

Greece Won't Pay Pending Settlement with U. S. by Other Countries.
By the Associated Press.
ATHENS, Greece, Nov. 14.—The Greek Government proposed today to inform the United States it could not pay the next installment on its debt pending the settlement of debts of other countries in America. The Government plans to ask the Chamber to adjourn for at least a month.

Brookhart Has Pneumonia.
Special to the Post-Dispatch.
CHICAGO, Nov. 14.—Senator Smith W. Brookhart (Rep.), Iowa, is seriously ill of pneumonia at the home of C. M. Pope, a friend, in Hinsdale, and physicians said his condition was too serious to permit removal to a hospital.

PAGE 2A
U.S. BROADCASTERS
WARNED TO TONE
DOWN ADVERTISING

Acting Chairman of Federal Commission Addresses Radio Station Owners at Convention Here.

400 MEN ATTEND
THREE-DAY SESSIONS

Rate Public Already Is Besieging Congress for Drastic Action, Says Hotel Chase Speaker.

In a speech before the National Association of Broadcasters at Hotel Chase today, Harold A. Lafont, acting chairman of the Federal Radio Commission, declared that many radio stations were falling for the temptation of over-commercialization, and are "operating mainly for the profits they gain through excessive and uninteresting advertising."

"In doing so, I warn them," he said, "that they are selling their birthrights for a mess of pottage and their judgment day will come. Already an irate public is besieging their representatives in Congress for drastic action."

Lafont said that the law provided that stations shall be licensed only when their operation will "serve the public interest, convenience and necessity." "But," he said, "the act does not define the term. It seems to me, however, that that definition is necessary. All we need to do is to use the word common sense with which we are all more or less endowed."

"An intelligent presentation of educational material," he said, "is imperative, and will increase the listening audience, consequently the demand for time by advertisers."

Lafont said that radio broadcasting in the United States was far beyond the experimental stage and that although he thought the American system was "the best in the world," it was still far from perfect.

At the bottom of all stations is, naturally, the cost of operation and, Lafont said, in the end it is always the public that pays. In England there is a direct tax on radios. In America it is advertising that pays the cost and from this come the faults of American broadcasting.

But the Radio Commission has no power of censorship and it cannot, therefore, either approve or disapprove of any program in advance of rendition. Lafont warned the broadcasters that they cannot shift the responsibility placed on them by Congress on the commission. "A good motto for the broadcaster to employ," he said, "is, 'When in doubt, don't broadcast.'"

A few of the ways in which stations "fall down" to advertising were listed by Lafont. A station will sell its time to an advertiser and then make no attempt to control the program, resulting in a haphazard, poorly presented, uninteresting presentation.

Another is to sell out to "a high-powered salesman" who then sells or retails the time and thus controls all material broadcast. In both of these instances the station is responsible, Lafont said, and the responsibility cannot be shifted to the advertiser or salesman. In case of an investigation, the station will be held liable.

Both communications referred also to the joint statement issued by President Hoover and Premier Laval after their conference here Dec. 26, 1931, which said: "We recognize that prior to the expiration of the Hoover year of postponement some agreement regarding them (debts) may be necessary repeating the period of business depression."

The French Government said its "heavy sacrifices" at Lausanne were based on the principles contained in the Hoover-Laval statement.

Britain's debt was funded at \$4,000,000,000 and France's at \$4,025,000,000. All foreign debts to the United States aggregate \$11,000,000,000. Total payments due from all debtor nations Dec. 15 exceed \$12,000,000,000. Those nations from whom no communication or notice has yet been received include Belgium, Czechoslovakia, Finland and Italy, although Belgium has decided to ask for an extension of the moratorium.

Through the Lausanne agreement was made dependent on the adjustment of all intergovernmental debts, the United States has denied repeating any connection between its war debts and German reparations.

Senator Borah (Rep.), Idaho, chairman of the Senate Foreign Relations Committee, has stated that debt considerations should be "accompanied by a program that will give some assurance that things will be different from this time on."

Senator Walsh said the British and French proposals ought to be

presented to the State Department. President Appeals to Others to Deposit Them By Dec. 1 to Make Plan Effective.

Plans for extension of the Public Service Co.'s per cent gold notes, due next Jan. 1, have been agreed to by holders of about 90 per cent of the notes, who either have deposited their notes or signified their intention to do so. But amount of the notes outstanding is \$2,448,875.

Stanley Clarke, president of the company, has appealed to holders of the remaining 10 per cent to deposit their notes before Dec. 1 so that the extension plan may be made effective. The company recently applied to the State Public Service Commission for authority to extend the notes.

The gold notes are the first to mature of any of the company's funded debt, amounting to about \$24,559,375. A collateral bank loan of \$10,000,000 has been extended from time to time.

President Visits at Home of Son

ON the way back from Palo Alto to Washington, PRESIDENT and MRS. HOOVER (on right) stopped at Sierra Madre to visit at the new home of MR. AND MRS. HERBERT HOOVER JR. (on left). ALLAN HOOVER is in the center.

FRANCE, BRITAIN
SEEK TO DEFER
DEC. 15 PAYMENT

Continued From Page One.

presented for the French Government an unsigned memorandum of like tenor. Ambassador Lindbergh's note said in part:

"The hope which was early raised by the President's initiative (moratorium) have unfortunately not been realized. Today many thoughtful men throughout the world are convinced that if the depression is to be overcome, further remedial measures must be sought."

His Majesty's Government believes that the regime of intergovernmental financial obligations as now existing must be reviewed. They are profoundly impressed with the importance of acting quickly."

"His Majesty's Government... asks for a suspension of the payments due from them for the period of the discussions now suggested or for any other period that may be agreed upon. His Majesty's Government... believes that the proposed discussions could best be held in Washington."

Both communications stressed the Lausanne conference of last July at which the Allied Powers agreed to reduce reparations to \$712,500,000 on condition that there be a reconsideration of intergovernmental debts including those owed by Europe to the United States.

The reparations total, first capitalized at \$4,000,000,000, was scaled down to \$3,500,000,000 in 1929, further reduced by the Dawes plan, and cut by the Young plan to between \$2,000,000,000 and \$3,000,000,000.

"The French Government, certain of being in close accord with the ideas of the American Government, voluntarily agreed to very heavy sacrifices at Lausanne," the memorandum from France said. "It is in this very same spirit that the French Government today proposes to the Government of the United States to join with it in a further study of the debt question."

"The French Government asks that... an extension of the suspension of payments may be granted... is further convinced that such a step would have the most helpful effect on the monetary crisis which threatens so many nations."

Hoover-Laval Statement. Both communications referred also to the joint statement issued by President Hoover and Premier Laval after their conference here Dec. 26, 1931, which said: "We recognize that prior to the expiration of the Hoover year of postponement some agreement regarding them (debts) may be necessary repeating the period of business depression."

The French Government said its "heavy sacrifices" at Lausanne were based on the principles contained in the Hoover-Laval statement.

Britain's debt was funded at \$4,000,000,000 and France's at \$4,025,000,000. All foreign debts to the United States aggregate \$11,000,000,000. Total payments due from all debtor nations Dec. 15 exceed \$12,000,000,000. Those nations from whom no communication or notice has yet been received include Belgium, Czechoslovakia, Finland and Italy, although Belgium has decided to ask for an extension of the moratorium.

Through the Lausanne agreement was made dependent on the adjustment of all intergovernmental debts, the United States has denied repeating any connection between its war debts and German reparations.

Senator Borah (Rep.), Idaho, chairman of the Senate Foreign Relations Committee, has stated that debt considerations should be "accompanied by a program that will give some assurance that things will be different from this time on."

Senator Walsh said the British and French proposals ought to be

presented to the State Department. President Appeals to Others to Deposit Them By Dec. 1 to Make Plan Effective.

Plans for extension of the Public Service Co.'s per cent gold notes, due next Jan. 1, have been agreed to by holders of about 90 per cent of the notes, who either have deposited their notes or signified their intention to do so. But amount of the notes outstanding is \$2,448,875.

Stanley Clarke, president of the company, has appealed to holders of the remaining 10 per cent to deposit their notes before Dec. 1 so that the extension plan may be made effective. The company recently applied to the State Public Service Commission for authority to extend the notes.

The gold notes are the first to mature of any of the company's funded debt, amounting to about \$24,559,375. A collateral bank loan of \$10,000,000 has been extended from time to time.

NATIONS HAVE PAID U. S.
\$2,627,580,897, STILL OWE
ABOVE \$11,598,000,000

By the Associated Press.

WASHINGTON, Nov. 14.—ORIGIN nations have paid the United States \$2,627,580,897, and still owe this country \$11,598,000,000, plus \$184,000,000 in interest postponed under the moratorium.

Of the payments, \$195,543,602 was received before the debts were funded and \$1,474,237,294 has been received since that agreement was negotiated.

The total now due includes \$2,000,000 in principal postponed under the moratorium.

Under the funding agreements, Great Britain owes \$4,355,000,000 and has paid \$2,025,000,000 in principal and \$1,149,720,000 in interest.

France owes \$2,863,550,000 and has paid \$1,151,350,000 in principal and \$35,550,000 in interest.

Including the amounts received before the debts were funded, Great Britain has paid \$1,911,738,238 and France has paid \$487,821.

The total debt includes those owed by Armenia and Russia, while the total payments include the debts of Cuba and Liberia, which have been paid.

The reparations total, first capitalized at \$4,000,000,000, was scaled down to \$3,500,000,000 in 1929, further reduced by the Dawes plan, and cut by the Young plan to between \$2,000,000,000 and \$3,000,000,000.

"The French Government, certain of being in close accord with the ideas of the American Government, voluntarily agreed to very heavy sacrifices at Lausanne," the memorandum from France said. "It is in this very same spirit that the French Government today proposes to the Government of the United States to join with it in a further study of the debt question."

"The French Government asks that... an extension of the suspension of payments may be granted... is further convinced that such a step would have the most helpful effect on the monetary crisis which threatens so many nations."

Hoover-Laval Statement. Both communications referred also to the joint statement issued by President Hoover and Premier Laval after their conference here Dec. 26, 1931, which said: "We recognize that prior to the expiration of the Hoover year of postponement some agreement regarding them (debts) may be necessary repeating the period of business depression."

The French Government said its "heavy sacrifices" at Lausanne were based on the principles contained in the Hoover-Laval statement.

Britain's debt was funded at \$4,000,000,000 and France's at \$4,025,000,000. All foreign debts to the United States aggregate \$11,000,000,000. ENDURANCE PILOT
REFUELS AIRPLANE
AS HE FLIES ALONE

Sets Automatic Controls and Leaves Cabin to Handle Hose From Second Ship.

By the Associated Press.

LOS ANGELES, Nov. 14.—A pilot flying alone successfully completed a refueling from another plane in mid-air yesterday shortly after taking off at 1 p. m. yesterday on an attempt to break the airplane solo endurance record.

The pilot, Paul Munro, was in a ship the designer, asserted would fly without a pilot once in the air. Setting a rudder arrangement, Munro left the cockpit of the cabin monoplane and went to the rear of the ship, where he snared a fuel hose dangling from a refueling plane overhead. He took on 132 gallons of gasoline.

The record of 28 hours 55 minutes was set by the late Lieut. Herbert J. Faby, May 30, 1929.

PRESIDENT DUE
AT WHITE HOUSE
EARLY WEDNESDAY

Continued From Page One.

ration for diversion of the stream yesterday through 50-foot tunnels in rock walls near the dam site to clear the river bed for evacuation to bedrock.

Speaking in the administration building at Boulder City, President Hoover said the dam was "the greatest engineering work of its character ever attempted by the hand of man" and expressed the hope he would be present at its completion "as a by-stander."

"Even so," he said, "I shall feel a special personal satisfaction."

He said the dam would serve four purposes, stabilizing the stream in flood season, providing domestic water for Southern California and parts of Arizona, supplying irrigation water for Arizona and valleys of Southern California in financial adjustments among themselves and toward armament reduction.

Practically all of our world war debt settlements were made not by the executive, but by the commission created by act of Congress, and all were approved in the form of legislation enacted by both houses.

A year ago in recommending to the Congress ratification of the moratorium I presented a statement of my views as to the whole of the relationship of ourselves to our debtor countries and pointed out that debts to us bore no relationship to debts between other nations which grew out of the war.

At the same time I recommended to the Congress that a new debt commission be created to deal with situations that might arise owing to the temporary incapacity of any individual debtor to meet its obligations to our country during the period of world depression.

Resolution of Congress. Congress declined to accede to this latter recommendation. It passed a joint resolution reading in part as follows:

"It is hereby expressly declared to be against the policy of the Congress that any of the indebtedness of foreign countries to the United States should be in any manner canceled or reduced; and nothing in this joint resolution shall be construed as indicating a contrary policy or as implying that favorable consideration will be given at any time to a change in the policy hereby declared."

The limitation to purely temporary and individual action as to those incapable of payment during the depression, expressed in the communique referred to in the British note said in my recommendation to the Congress, was evident in these documents.

The refusal of the Congress to authorize even the examination of this question, together with the above resolution, gave notice to all debtor governments of the attitude of this Government toward either cancellation or reduction of existing obligations. Therefore, any commitments which European governments may have made between themselves could not be based upon any assurances of the United States. Moreover, the tenor of negotiations asked for by the debtor governments goes beyond the terms of the congressional resolution referred to.

Long Discussions Necessary. I have publicly stated my position as to these questions, including that I do not favor cancellation in any form, but that we should be receptive to proposals from our debtors of tangible compensation in other forms than direct payment in expansion of markets for the products of our labor and our farms. And I have stated further that substantial reduction of world armament which will

Hoover's Note Inviting Roosevelt to Conference

ON PRESIDENT'S TRAIL.

FOLLOWING is the text of President Hoover's invitation to confer with him on the international debt problem:

Gov. Franklin D. Roosevelt, Albany, N. Y.

The Secretary of State has informed me that the British Ambassador, on behalf of his Government, has handed him a note stating that "they believe that the regime of intergovernmental financial obligations as now existing must be reviewed; that they are profoundly impressed with the importance of acting quickly, and that they earnestly hope that the United States Government will see its way clear to enter into an exchange of views at the earliest possible moment."

The British Government further asks for a suspension of the payments due by the British Government to the United States for the period of the discussion suggested, or for any other period that may be agreed upon.

The last suggestion clearly relates to the payment of \$55,000,000, which will fall due on Dec. 15, 1932. I have requested the Secretary of State to transmit you a full copy of that note.

The Secretary of State has also just been informed that similar requests are to be made by other debtor Governments that likewise are obligated to make payments to the United States on Dec. 15 next. One debtor nation has requested a payment due Nov. 10, and another debtor nation served notice on our Government of its incapacity to make a payment due on Dec. 15.

Our Government is now confronted with a world problem of major importance to this nation.

What Moratorium Achieved. The moratorium which I proposed a year ago in June, this is, the year's postponement of intergovernmental debts and the spread of the deferred payment over 10 years, was approved by Congress.

It served a great purpose in staying destruction in every direction and giving to Europe a year in which to realize and so modify their attitude on solely European questions as to support their credit structure from a great deal of further destruction. They have made very substantial progress during that year in financial adjustments among themselves and toward armament reduction.

Practically all of our world war debt settlements were made not by the executive, but by the commission created by act of Congress, and all were approved in the form of legislation enacted by both houses.

A year ago in recommending to the Congress ratification of the moratorium I presented a statement of my views as to the whole of the relationship of ourselves to our debtor countries and pointed out that debts to us bore no relationship to debts between other nations which grew out of the war.

At the same time I recommended to the Congress that a new debt commission be created to deal with situations that might arise owing to the temporary incapacity of any individual debtor to meet its obligations to our country during the period of world depression.

Resolution of Congress. Congress declined to accede to this latter recommendation. It passed a joint resolution reading in part as follows:

The limitation to purely temporary and individual action as to those incapable of payment during the depression, expressed in the communique referred to in the British note said in my recommendation to the Congress, was evident in these documents.

The refusal of the Congress to authorize even the examination of this question, together with the above resolution, gave notice to all debtor governments of the attitude of this Government toward either cancellation or reduction of existing obligations. Therefore, any commitments which European governments may have made between themselves could not be based upon any assurances of the United States. Moreover, the tenor of negotiations asked for by the debtor governments goes beyond the terms of the congressional resolution referred to.

Long Discussions Necessary. I have publicly stated my position as to these questions, including that I do not favor cancellation in any form, but that we should be receptive to proposals from our debtors of tangible compensation in other forms than direct payment in expansion of markets for the products of our labor and our farms. And I have stated further that substantial reduction of world armament which will

relieve our own and world burdens and dangers has a bearing upon this question.

If negotiations are to be undertaken as requested by these governments, protracted and detailed discussions would be necessary which could not be concluded during my administration.

Any negotiation of this question on the basis of the requests of these governments is limited by the resolution of the Congress. And if there is to be any change in the attitude of the Congress it will be greatly affected by the views of those members who recognize you as their leader and who will properly deal with the country. I am loath to proceed with recommendations to the Congress until I can have an opportunity to confer with you personally at some convenient date in the near future.

World Economic Conference. There are also other important questions as to which I think an interchange of views would be in the public interest. The building of world economic stability is, of course, of the greatest importance in the building up of our recovery.

As you know, a world economic conference will be held during the course of the coming winter. Already two American experts have met with the technical experts of other governments to prepare tentative agenda. While this conference may be begun during my administration, it is certain that it will not be completed until you have assumed office.

Parallel with this, of course, is the disarmament conference in which the United States has taken a leading part. This also has a great economic purpose as well as the advancement of world peace.

Time is of great importance in all these questions, and I understand the year plan to come to Washington some time during the latter part of next week, and I hope you will find it convenient to stop off long enough for me to advise with you.

I should, of course, be only too glad to have you bring into this conference any of the Democratic Congressional leaders or other advisers you may wish.

(Signed) HERBERT HOOVER.

Inviting Roosevelt to Conference

ON PRESIDENT'S TRAIL.

ITALY'S MYSTERY MAN
GIVEN KING'S PARDON

Printer or Professor, Two Women Claim Him But He Remembers Neither.

By the Associated Press.

TURIN, Italy, Nov. 14.—The King's attorney has announced a pardon of part of the offenses of the man officially known as Mario Bruneri, whose identity has been a mystery for years.

The pardon of three of the charges of theft and fraud leaves Bruneri only six more months to serve of his four-year sentence.

The man was identified as having been a printer and a professor, and had been arrested in a cemetery at Turin eight years ago. He said he had no recollection of his name or past.

One of the women was Signora Canella, who said he was her husband, Giulio Canella, father of her children. She said he had disappeared during a campaign of the world war in Macedonia. She took him home with her and they lived as husband and wife.

The other women identified him as Mario Bruneri, a typographer. Four courts heard the dispute, and the highest upheld the Bruneri identification.

Police meanwhile had decided that a man they were looking for on complaints including theft of monuments from Turin Cemetery was the missing typewriter.

Accordingly the man identified as Bruneri was incarcerated.

Despite the court's ruling that he was Bruneri and not her husband, Signora Canella worked for the man's freedom, carrying on a ceaseless appeal to the Supreme Court and finally asking for a King's pardon.

3 MEN GET \$9049 IN HOLDUP OF BANK AT STOCKTON, MO.

By the Associated Press.

STOCKTON, Mo., Nov. 14.—The Sac River Valley Bank of Stockton was robbed of \$9049 shortly after it opened this morning by two men who escaped in a maroon-colored coach bearing an Oklahoma license.

One of the robbers entered the bank and asked for change for a \$20 bill. After W. B. Davis, cashier, opened the safe to make change for the bill, the robber and his companion who had entered the bank office and the two customers present.

ALLY'S MYSTERY MAN GIVEN KING'S PARDON

Inter or Professor, Two
Women Claim Him but He
Remembers Neither.

ST. LOUIS, Mo., Nov. 14.—The ally's attorney has announced a pardon of part of the offenses of a man officially known as Mario Bruneri, whose identity has been a mystery for years.

The pardon of three of the five charges of theft and fraud leaves Bruneri only six more months to serve of his four-year sentence.

The man was identified as husband by two women after he had been arrested in a cemetery at St. Louis eight years ago. He said he had no recollection of his name or of the women.

One of the women was Signora Canella, who said he was Prof. Canella, father of her five children. She said he had disappeared during a campaign of the World War in Macedonia. She took him home with her and they lived as husband and wife.

The other woman identified him as Mario Bruneri, a typographer. Her courts heard the dispute, and a final ruling upheld the Bruneri identification.

Police meanwhile had decided that a man they were looking for complaints including theft of monuments from Turin Cemetery and the missing typewriter Bruneri, accordingly the man identified as Bruneri was incarcerated.

Despite the court's ruling that he was Bruneri and not her husband, Signora Canella worked for the man's freedom, carrying an unsuccessful appeal to the Supreme Court and finally asking for a king's pardon.

MEN GET \$9049 IN HOLDUP OF BANK AT STOCKTON, MO.

STOCKTON, Mo., Nov. 14.—The River Valley Bank of Stockton was robbed of \$9049 shortly after opening this morning by two men who escaped in a maroon-colored car bearing an Oklahoma license.

One of the robbers entered the bank and asked for change for a \$5 bill. After W. B. Davis, cashier, opened the safe to make change for the bill, the robber and his companion who had entered in meantime, pointed revolvers at the bank officer and the two customers present.

As the three complied with a demand to "put up your hands," the two unmasked robbers went to the vault and took the currency.

SECOND MAN DIES AFTER BEING HIT BY DRIVER WHO FLED

East St. Louis Police Think
Same Motorist Responsible
for Fatal Injuries to
Two Persons.

WILLIAM H. SHEER LATEST VICTIM

Retired Engineer Struck at
Sixth and Summit 10
Minutes After Robert
Huston Was Killed.

William H. Sheer, retired locomotive engineer, died yesterday of a fractured skull suffered last Thursday evening when struck by an automobile in East St. Louis. The driver failed to stop, and has not been apprehended.

Sheer was run down at Sixth and Summit avenue while driving his car, 514 North Seventh street. The driver increased speed, continuing north on Sixth street. Sheer was taken to St. Mary's Hospital and died without regaining consciousness.

Ten minutes before Sheer was injured, Robert Huston, unemployed laborer, was killed by an automobile on Sixth and Eighth avenues. The driver stopped, requested a filling station attendant to summon an ambulance, and drove away.

A maroon-colored closed car figured in both accidents. A witness reported that the machine which struck Sheer had a twisted headlight and fender. Witnesses to the other accident said a headlight and fender of the car were bent when Huston was hit. Headlight glass found near each victim was of the same design, leading investigators to believe that the same automobile struck Huston and Sheer.

Sheer, 69 years old, worked for the Baltimore & Ohio Railroad for 25 years, being retired in 1928.

Child Killed When Father's Auto Struck by Truck

Robert William Cavanagh, 10-year-old son of Mr. and Mrs. Frank E. Cavanagh, 5456 Maple avenue, was killed last night when an automobile struck him by his father's car at the intersection of a telephone pole at the side of highway 21, near Caledonia, Washington County, Mo.

His father, who is president of the Cavanagh Printing Co., suffered severe lacerations. There were no other persons in the car.

Funeral services will be held at the Alexander chapel, 6175 Lamar boulevard, at 2 o'clock tomorrow afternoon.

Mrs. Lena Kelly, 6226 Oakland avenue, and her children, Catherine, 3, and James, 7, were injured yesterday afternoon when an automobile in which they were riding with Mrs. Helen Bush, sister of Mrs. Kelly, hit a trolley pole in front of 4600 Arsenal street. Mrs. Kelly was thrown out of the car, suffering a skull injury. The children were cut and bruised.

Alvin Kinst, 18, 5566 St. Edward avenue, suffered a fractured spine when a blow out causing his automobile to overturn in a ditch near Bloomdale, Mo., last night.

Abdo Reach, a butcher, 1108 Dolan street, suffered a skull injury in a collision of his automobile with a Telegraph road, in St. Louis County.

OPEN VERDICT IN KILLING OF EAST SIDE LANDLORD

Police Reports Provide Only Testimony at Inquest Into Murder of Fred Hottel, 72.

An open verdict of homicide was returned today in the death of Fred Hottel, East St. Louis landlord, who was murdered Friday night in one of his vacant flats at 101 South Fourth street. Police reports of the killing provided the only testimony at the inquest.

Funeral services for Hottel, who was 72 years old, were held this afternoon. He resided at 825 Market avenue, and was noted among his friends for his frugality. He owned about 100 pieces of property which he himself maintained and kept in repair. Police have found no clue to the identity of his slayer, who beat him to death.

STABS STREET CAR CONDUCTOR

Louis Mayer, operator of a one-man Volition street car, was stabbed in the right arm early yesterday by a Negro passenger during argument over payment of fare.

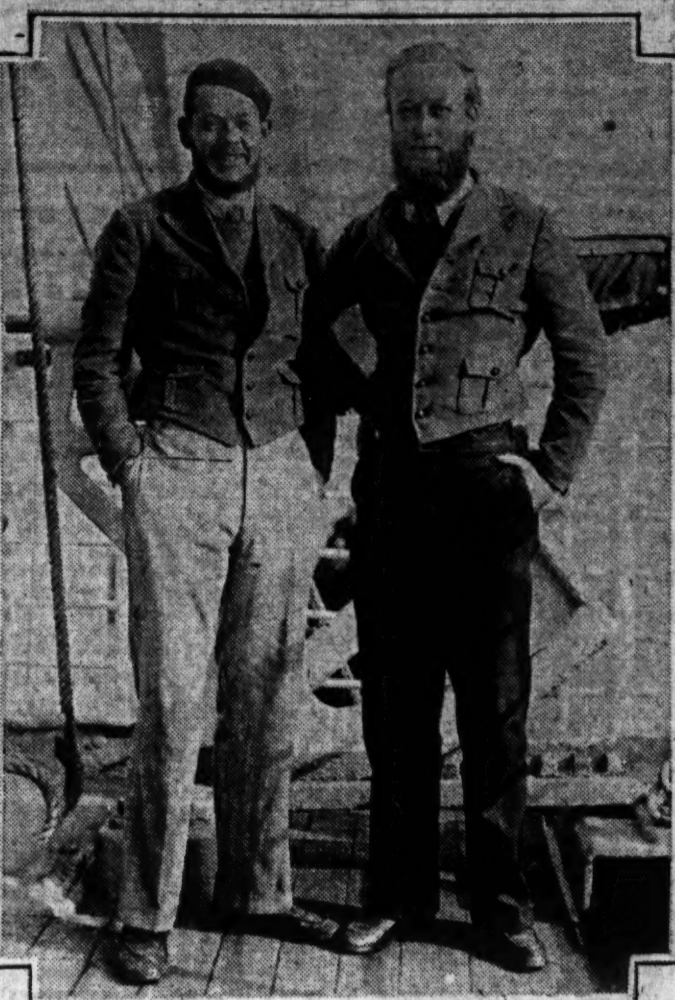

The Negro fell asleep on the car and refused to pay a second fare when the car turned at the downtown loop. After stabbing Mayer, the assailant fled. Police later arrested a Negro, who was identified by Mayer, but who denied having been on the car.

WOMAN LOSES CLAIM AS \$2,000,000 HEIRESS

Suit to Be Declared Adopted
Daughter of Reuben Musick
Dismissed.

The suit of Mrs. Mary Wunsch, 2104A South Eleventh street, to be declared the adopted daughter of Reuben Musick, wealthy landowner of Florissant, who died in 1871, was dismissed by Circuit Judge Hall today. The case had been under advisement since June 8. Judge Hall held that the testimony was not sufficient upon which to base a claim for adoption.

Mrs. Wunsch, who is 72 years old and the wife of a retired tobacco worker filed suit as a pre-emptive action to secure possession of Musick's former estate, now valued as high as \$2,000,000. His 2000 acres are now in 75 persons and include a number of fine St. Louis County estates, among them that of Joseph Desloge.

The only question to be considered, according to Judge Hall, was whether Musick and his wife had agreed to adopt "little Mary." Although conceding that the child resided in the home until after Mrs. Musick's death, in 1870, Judge Hall reviewed testimony that Mr. and Mrs. Musick were very charitable people and had in the course of their lives taken as many as 17 orphans into their home. He said Mrs. Musick especially never turned away anyone in distress.

Concerning the testimony of witnesses who recalled hearing Musick speak of plans to adopt "little Mary," 62 years ago, Judge Hall pointed out the witnesses themselves would have been small children, and said it would be "stretching one's imagination and credulity" to credit their testimony. He also commented on the fact that Mrs. Wunsch, although using the name of Musick at the time of her marriage 55 years ago, had made no effort to claim Musick's estate until recently.

Musick, a miller and ferryman, owned 100 pieces of property in and near Florissant and in St. Louis, all of which was partitioned among distant relatives four years after his death. Two of the present owners paid \$5000 to Mrs. Wunsch for a quit-claim on a 36-acre tract on Hall's Ferry road. The other owners banded together to resist the claim.

WRITES NOTE TO HIS MOTHER AND ENDS LIFE WITH POISON

Laborer, 22, Asks Parent Not to
"Tell Everything on Me," in
Farewell Message.

Andrew Griffith, 22 years old, a laborer, ended his life today by swallowing poison at his home, 730 North Fifteenth street, East St. Louis.

He left a note to his mother which read: "I guess you are right, Mom, I better get out of the way. Don't tell everything on me. Forgive me."

He was the son of Mr. and Mrs. Walter Griffith. His father, a laborer, preaches each Sunday in the Baptist Church at East Carondelet. The body was found by his sister-in-law and grandmother about 11 a. m., when they returned home after escorting his mother to the street car line. She went to St. Louis.

THROWS ACID ON CLOTHING

Earl Fletcher, a roomer at 4236 Delmar boulevard, was charged with destruction of property last night on complaint of Miss Wilma Leath, a roomer in the same house, who told police he threw acid on her clothing, damaging about \$150 worth.

Police reported Fletcher told them he was angry because they were engaged to be married and she had broken the engagement.

FIRST OF R. F. C. RELIEF LOAN TO ST. LOUIS USED

Gov. Caulfield Turns \$130,-
591 Over to Citizens'
Committee to Care for
October Expenditures.

Gov. Caulfield today turned over to the Citizens' Committee on Relief and Employment \$130,591, the first money taken from the \$628,920 Federal loan to the City of St. Louis authorized by the Reconstruction Finance Corporation.

The money is to reimburse the Citizens' Committee for its expenditures in the month of October, over and above the sum available from city appropriations and private contributions.

For November, it is estimated, the committee will need \$200,000 or more of the Federal loan. It is hoped that after Dec. 1 the relief needs can be supplied through the municipal appropriations, private gifts and proceeds of the \$4,600,000 municipal relief bond issue.

As has been told, the Citizens' Committee did not find it necessary to use any part of the authorized loan for September, as had been contemplated. Hence, it appears that the city may be able to get along with some \$121,000 of the \$628,000 authorized, and may not be obliged to call for the rest of the loan.

The money was paid to the Governor, custodian of the loan, in the form of a check drawn on the Federal Reserve Bank. He indorsed it over to Harold T. Jolley, treasurer of Citizens' Committee.

Another check, for \$58,176, was indorsed over to C. W. Pfeiffer, secretary of the Kansas City Charities Fund. This represented the first money to be used by Kansas City out of the \$3,000 loan authorized by the Reconstruction Finance Corporation to meet relief needs there in September and October. The \$58,176 was for September expenditures.

Gifts to Be Sought in Multiples of \$1.00

"Minute men" will conduct the \$4,000,000 United Relief Campaign which opens Dec. 4, and will seek contributions in multiples of \$1.00. The estimated cost of maintaining the 82 relief agencies for one minute.

Frank O. Watts, general chairman, said those who have given \$5 in the past will be asked this year to contribute \$7.61, those who have been in the \$10 class will be asked to give \$15.22, and so on with larger subscriptions.

Progress of the campaign will be recorded on a clock which will show how many of the 525,000 minutes in 1933 have been provided for by subscriptions.

In other campaigns Watts said, subscribers have had the somewhat vague satisfaction of knowing they were helping. In the present drive they will be called on to subscribe funds to provide for relief needs for a definite period of time.

"It is felt," he added, "that by picturing in this fashion the actual extent of relief made possible by subscriptions St. Louisans will be more disposed to take up their part of the burden."

"In making our goal possible we realize many citizens must make genuine sacrifices. Nevertheless they will have the comfort of knowing their gifts will help keep some family from starving, or some child from succumbing to the effects of ill nourishment during the coming year."

CENTRAL TRADES AGAIN SEEK PARDON FOR TOM MOONEY

Each Union Asked to Write California Governor Requesting an Open Hearing.

The Central Trades and Labor Union again went on record to work for the release of Tom Mooney, at its meeting in Carpenters' Hall, Grand boulevard and Cass avenue, yesterday afternoon, when a resolution was passed instructing each of the separate unions to write to Gov. James Rolph Jr., of California, asking for an open pardon meeting.

The resolution was passed after the reading of a letter which told of new evidence in the case.

The central body also unanimously indorsed the United Relief Campaign, which includes the Community Fund, the Catholic Charities, and the Federation of Jewish Charities. David Keyling, secretary of the Central Trades, accepted an invitation to serve on the United Relief Committee.

Keyling announced the annual election meeting, which usually falls on the last meeting in December, would be held on Dec. 11, since the fourth Sunday of the month comes on Christmas day. The regular meeting scheduled for Christmas day will be canceled.

BARBER ENDS LIFE WITH GAS

Leaves Note Giving Directions for Use of Insurance.

John W. Hall, 50 years old, a barber, ended his life with gas this afternoon in his sleeping quarters at the rear of his shop, 3604 Arkansas avenue.

Police, summoned by neighbors, found him about 2:30, lying in bed with a gas hose leading from under the covers to a jet. He left a note which said Albert Hunt of Farmington, Mo., would provide for his funeral. A postscript asked Hunt to give any of his insurance money that might remain to a Mrs. Hite.

Stricken at Card Game, Dies

David Nemon, a 49-year-old jobber, 1178 Hoddiamont avenue, became ill last night while playing cards at his home with his wife and two friends, dying in a few moments. Firemen attempted to revive him. His physician said he suffered from acute indigestion.

CUTS HER PATTERN TO FIT HER CLOTH

ONE month ago PATRICIA FARLEY was given a movie contract to go in effect in 30 days, provided she reduced 15 pounds in that period. She lost the weight in scheduled time. Miss Farley is said to resemble Gloria Swanson.

WOMAN IS KILLED IN E. ST. LOUIS BY RAIL MOTOR COACH

Mrs. Catherine Placek, 60,
Knelt on Track, Operator
Says, but Others Declare
She Stumbled.

Mrs. Catherine Placek, 60 years old, was killed yesterday when struck by a Missouri Pacific motor coach at Third street and Bowman avenue, a block from her home in East St. Louis. She was the wife of Frank Placek, a retired grocer, of 303 Exchange avenue.

Edward E. Reisinger, operator of the coach, said Mrs. Placek stood by the right of way until the car was within 30 feet of her and then knelt in the tracks on her hands and knees. Reisinger, who lives in St. Louis at 3310 Arsenal street, said he operates in passenger service between here and Southern Illinois.

A railroad detective who investigated the accident said some witnesses told of the woman's kneeling on the tracks, while others thought she stumbled and fell as she started across. She wore a kimono over night clothing, the detective said.

Relatives of Mrs. Placek said she was on her way to a drug store. Besides her husband, three sons, James, Joseph and Rudolph Placek, survive.

FOUND DEAD IN VACANT LOT

Man Thought to Have Succumbed to Natural Causes.

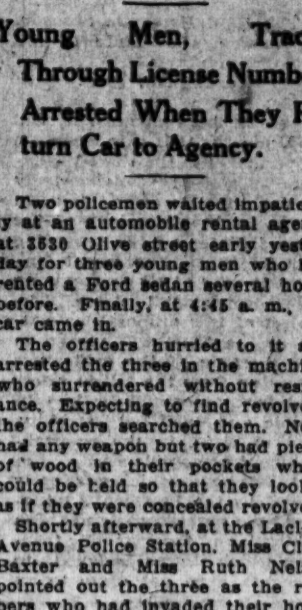

The body of a man, about 55 years old, was found yesterday in a vacant lot near the Rock Island Railroad tracks and Red Bud avenue. Death apparently was due to natural causes.

The man was 5 feet 5 inches tall, weighed 140 pounds, and had brown eyes. His brown hair was streaked with gray. A woman's face was tattooed on his left forearm. The clothing, which contained no papers or marks of identification, included gray trousers, white cotton socks, a black sweater and a green and brown lumberjack coat. Police think the man was a transient.

WILLIAM S. BROCK, WHO FLEW ATLANTIC, DIES

Noted Aviator Succumbs in
Chicago at 36—Was
Pilot at 16.

By the Associated Press.

CHICAGO, Nov. 14.—William S. Brock, who pioneered in prewar aviation, taught American soldiers to fly during the war, piloted air mail planes and then capped his career with a flight across the Atlantic, died last night of cancer.

Billy Brock, as he was known in aviation circles, was born 36 years ago at Gladstone, O. As a youth the exploits of Lincoln Beachey, Arch Hoxsey and other early American flyers, led him into aviation.

In recent years Brock was the private pilot of a wealthy Chicagoan.

He is survived by his widow, Dolly; a daughter, June, 11, and a son by a former marriage, William S. Brock Jr. His mother, Mrs. Helen Campeau, and a brother, Foster Brock, also survive.

ROBBERS TAKE CHARGE OF AIRWAYS OFFICE

Three Pose as Ticket Sellers in
Chicago While Looting
Place of \$400.

By the Associated Press.

CHICAGO, Nov. 14.—Three robbers took over the operation of the United Airlines ticket office for a half-hour yesterday afternoon, and gave information to a number of passengers and inquirers while rifling the safe and cash drawers. They escaped with \$400.

Appearing as prospective customers, the men displayed revolvers, forced three employees into a rear room of the office, bound and gagged them, and, taking off their coats, proceeded to take the roles of their victims. They accomplished their looting and drove away in an automobile. The employees extricated themselves and summoned police.

The ticket office is located on Michigan avenue, thronged with the usual Sunday strollers. Less than 20 feet away a policeman directed traffic during the robbery.

Text of English and French Notes Asking for Suspension of War Debts

FOLLOWING is the text of the English note to the United States asking for a further suspension in payments on the debt to the United States:

BRITISH EMBASSY,
WASHINGTON, D. C.,
Nov. 10, 1932.
The Hon. Henry L. Stimson,
Secretary of State of the
United States,
Washington, D. C.

Sir:
It will be remembered that on June 22, 1931, His Majesty's Government in the United Kingdom subscribed wholeheartedly to the principle of the proposal made by the President of the United States in the preceding day for the postponement during one year of all payments on intergovernmental debts. The object of this proposal, as stated at the time, was to relieve the pressure of the difficulties resulting from the fall in prices and lack of confidence in economic and political stability, and to assist in the re-establishment of confidence.

1. The hopes which were early raised by the President's initiative have unfortunately not been realized, and the economic troubles which it was designed to alleviate have not come to an

end. Indeed, in October of last year the communique published at Washington on the occasion of Monsieur Laval's visit already recognized that "prior to the expiration of the one-year agreement on intergovernmental obligations may be necessary covering the period of the business depression. The initiative in this matter should be taken early by the European Powers principally concerned within the framework of the agreements existing prior to July 16, 1931." Today many thoughtful men throughout the world are convinced that if the depression is to be overcome, further remedial measures must be sought.

2. It was in accordance with the recommendation quoted above that in June last the European creditor Powers met at Lausanne to agree on a lasting settlement of the problem created by intergovernmental payments in respect of reparations. The series of agreements reached on July 9 aims at the ultimate termination of all reparations payments. It represents the maximum contribution in the field of intergovernmental finance which the Governments concerned have so far been able to make towards that early restoration of world prosperity in which the people of the United States, no less than those of the British commonwealth of nations, have so deep an interest, and for the achievement of which the co-operation of the United States is essential.

3. On the nature of the remedial measures that may have to be adopted it is not proposed now to say more than that, in the recent past, His Majesty's Government in the United Kingdom have frequently expressed their view, and that neither in the realm of theory nor in that of fact are they able to find any reason for amending it. They believe that the regime of intergovernmental financial obligations as now existing must be reviewed. They are profoundly impressed with the importance of acting quickly, and they earnestly hope that the United States Government will see its way to enter into an exchange of views at the earliest possible moment.

Request for Suspension.

The immediate objective of the present note, however, is of a more limited nature. On Dec. 15 the next installment of the British war debt is due to be paid. It is not possible to hope that agreement can be achieved in five weeks on matters of such vast scope. Confronted last summer with a similar difficulty, the conference of Lausanne found it necessary, in order to allow its work to proceed undisturbed, to reserve, during the period of the conference, the execution of the payments due to the participating Powers. His Majesty's Government in the United Kingdom hope that a similar procedure may now be followed, and ask for a suspension of the payments due from them for the period of the discussions now suggested or for any other period that may be agreed upon.

6. His Majesty's Government in the United Kingdom believe that the proposed discussions could best begin in Washington and if this suggestion meets with concurrence, they are prepared to provide me with the necessary instructions. On this point, however, as well as on the other points touched upon in the present note, they await an expression of the views of the United States Government. I have the honor to be, with the highest consideration, sir, your most obedient, humble servant.

R. C. LINDSAY.

Text of French Note.
THE translation of the French note requesting a suspension of payments follows:

PARIS, Nov. 10, 1932.

Memorandum of the French Government.

The French Government, seriously concerned with the effect that the problems arising from the intergovernmental debts are having on the world-wide depression, deems it of vital importance to approach the Government of the United States, asking it to co-operate in examining this question in a spirit of frankness and true friendliness.

During the months of June and July last, the Governments of Europe assembled in Lausanne with a view to averting to the very best of their ability the difficulties arising from the payments which these debts entail.

During the months of June and July last, the Governments of Europe assembled in Lausanne with a view to averting to the very best of their ability the difficulties arising from the payments which these debts entail.

During the months of June and July last, the Governments of Europe assembled in Lausanne with a view to averting to the very best of their ability the difficulties arising from the payments which these debts entail.

During the months of June and July last, the Governments of Europe assembled in Lausanne with a view to averting to the very best of their ability the difficulties arising from the payments which these debts entail.

During the months of June and July last, the Governments of Europe assembled in Lausanne with a view to averting to the very best of their ability the difficulties arising from the payments which these debts entail.

During the months of June and July last, the Governments of Europe assembled in Lausanne with a view to averting to the very best of their ability the difficulties arising from the payments which these debts entail.

During the months of June and July last, the Governments of Europe assembled in Lausanne with a view to averting to the very best of their ability the difficulties arising from the payments which these debts entail.

During the months of June and July last, the Governments of Europe assembled in Lausanne with a view to averting to the very best of their ability the difficulties arising from the payments which these debts entail.

development of the proposal made by the President of the United States in June, 1931, the French Government, certain of being in close accord with the ideas of the American Government, voluntarily agreed to very heavy sacrifices at Lausanne, hoping thereby to appease resentment existing among nations, and at the same time to make a contribution toward economic recovery and toward the consolidation of peace.

Further Effort Necessary.
Important as were the effects of the Lausanne Conference, it must be said that the economic and financial difficulties which stand in the way of a resumption to normal relations between nations are still present, and that a further effort must be made to put an end to them in the interest of all.

The attitude which France displayed at Lausanne and at Stresa is proof of the active interest which she attaches to the prompt economic recovery of Europe and of the effort which she still contemplates making toward fulfilling this task. France is no less anxious to co-operate in bringing about the success of the world-wide economic and monetary conference.

It is in this very same spirit that the French Government today proposes to the Government of the United States to join with it in a further study of the debt question. Inasmuch as such a study will, by virtue of circumstances, require too much time for a speedy conclusion to appear probable, the French Government asks that, in accordance with the process followed at Lausanne, an extension of the suspension of payment may be granted to the French Government in order that the study of the present serious problems now under discussion may be continued and completed in the necessary atmosphere of mutual trust. The French Government is further convinced that such a step would have the most helpful effect on the monetary crisis which threatens so many nations.

Trusting in the high wisdom and spirit of justice of the American Government, the French Government is convinced that its point of view will be understood and that the request contained herein will be favorably received.

BLOOD-STAINED
COLLARS

STOP "LATHER-BURNING"
YOUR FACE, MEN!

SHAVE THE
MODERN WAY

Use a lubricating cream
instead of an irritating
lather!

Do you go to work every morning with a face more fit for the emergency ward than the office? Does your face look like a chunk of raw beef and your collar like a butcher's apron?

You probably blame it on the razor, but this is a mistake. The fault lies with the lather—the lather you like to heap on your face in ever-increasing billows.

Lather, Mr. Shaver, is a caustic. It is soap with free alkali in it to make it saponify or foam. Free alkali dries and burns the skin. It makes it tight, sore and tender—sensitive to the razor's touch.

Also, because it dries on the face, lather makes a slow path for the razor. The razor can't glide over the face, but sticks, stalls and stumbles. It nicks the skin, digs and chops. The face isn't shaved, but scraped!

Lather-burned and razor-scraped, your face looks and feels as if you had tried to act as peace-maker in a cat-and-dog fight.

Takes Shaving Out of
the Dark Ages!

Mollé takes shaving out of the Dark Ages and brings it up to the twentieth century. Mollé dispenses with lather and brush altogether and replaces the two with a more modern and scientific principle.

Mollé employs lubrication instead of saponification!

The secret of a smooth shave is a smooth surface over which the razor can travel at full speed. And that's what Mollé does—makes a slick path for the razor. It lays upon the skin a film of unique cream that is at once soothing, cooling and lubricating. The razor then can fairly sail along.

MOLLÉ
(MO-LAY)
The Modern No-Brush NO LATHER
Shaving Cream

It can get up full speed and meet the hairs full force, taking them off with a sharp, decisive stroke. The lubricated skin and the swift, powerful razor stroke makes a shave that you can truly describe as "sweet".

A Comfortable Face
A Presentable Face.

A shave that makes after-lotions necessary is inherently wrong. Mollé makes lotions superfluous, for Mollé is a balm to the skin as well as a shave. It contains fine oils that restore the sun and wind parched skin and make it luxuriously soft and flexible. Leave a little Mollé on your face after shaving and rub it in and you will find shaving a skin improver as well as a remover of whiskers.

Be Open-Minded—Fair Minded!

Don't be so narrow-minded as to think that because you have been using lather all your shaving years you have to go on using it. Remember, the ox cart was once the only means of locomotion. Don't delude yourself with the thought that you have to see a heap of lather on your face before you can shave. Be modern. Be open-minded. Give Mollé a trial. Let your own experience tell you whether it makes lather obsolete or not.

We invite you to try Mollé at our risk. Get a tube or jar at any drug store and use it with your regular razor and blade. If it doesn't make shaving a wholly new experience to you, your money will be promptly and cheerfully refunded.

All drug stores sell Mollé—30c and 50c tubes and 75c jar. Or write for liberal trial tube. A letter, postcard or the coupon below brings you the generous trial tube of Mollé, postpaid and free! Clip the coupon now and learn what a really smooth shave is.

TRIAL TUBE FREE!

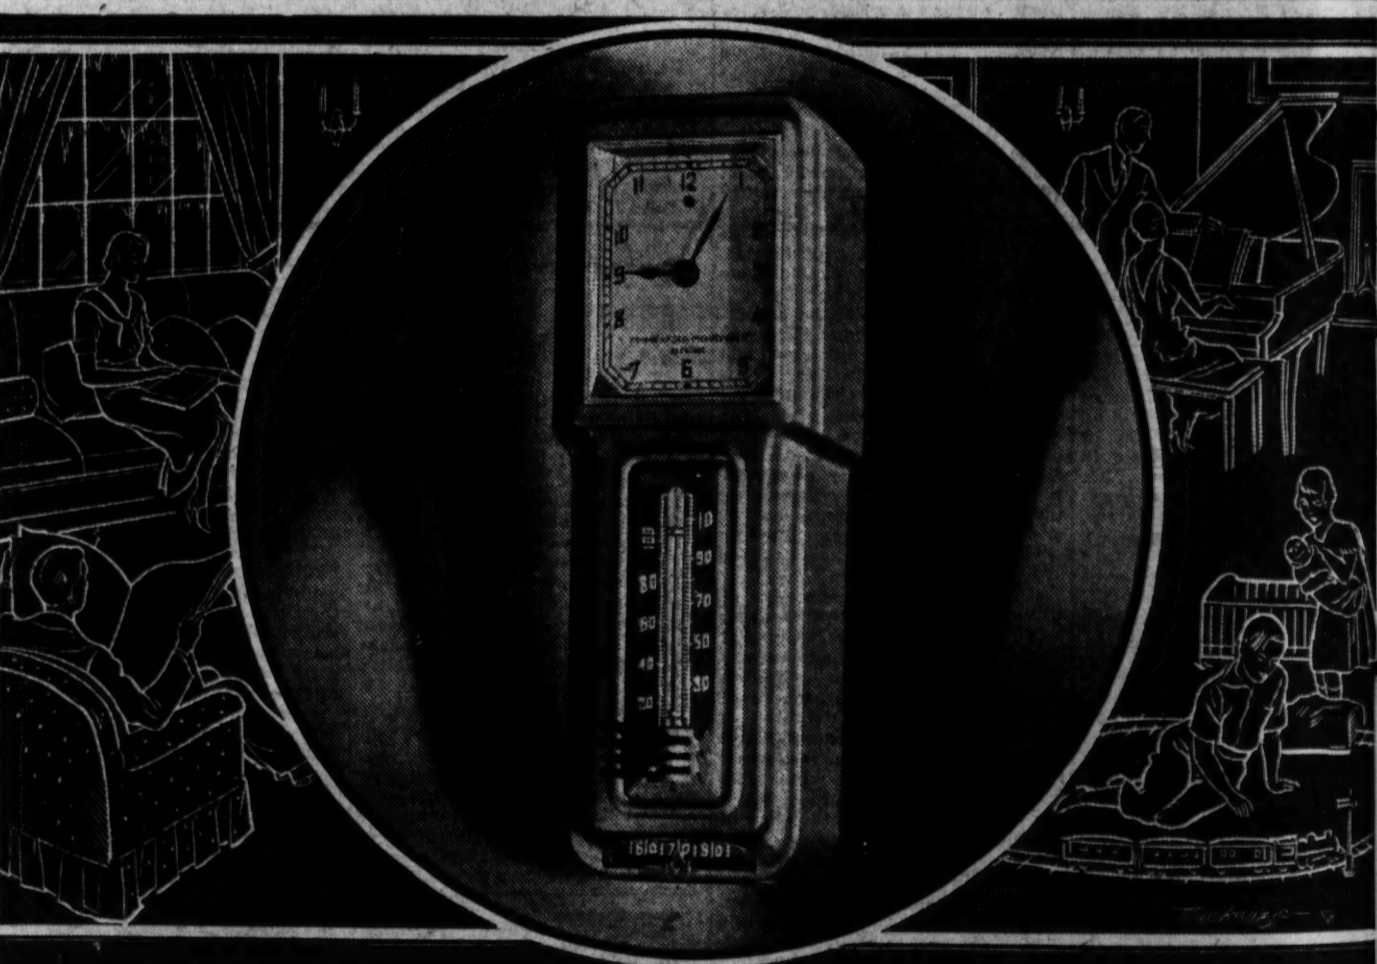

The Mollé Company,
Dept. 4A, Bedford, Ohio.
Gentlemen: I want to try a lubricated shave. Shoot along your liberal trial tube of Mollé.

CITY CHESS PLAY RESULTS

Hyman Gordon, 19-year-old Y. M. H. A. chess player, went into first place Saturday night in the round-robin tournament for the individual chess champion of the city. He defeated Lewis W. Haller, two-time former champion, in the third round of play at the Gateway Hotel and now has three straight victories.

Other results were: Calvin Marvin defeated Land A. Alpien, John Lips defeated William Waggoner and Harry Law defeated Sanford B. Avis. Six more rounds will be played on successive Saturday nights to determine the champion.

Consider the economy of buying the best!

MINNEAPOLIS-HONEYWELL ELECTRIC-CLOCK THERMOSTAT

Is all America rediscovering the true economy expressed in the old axiom, "the best is cheapest in the long run"? You know it is—especially in equipment which makes your home comfortable, convenient, modern.

You have always wanted one such permanent possession, an automatic heat regulator. Now that you are planning to be at home often, and want to keep your fuel bills lower than last winter's, you want automatic heat more than ever. But stop a moment before you make up your mind finally and consider this fact: even today, with the cost of heat regulators 'way down, the finest, most perfectly designed, completely modern, all-electric thermostat costs very little more than a slightly less automatic, less beautiful design. And for that small

additional cost you get these almost priceless advantages—beauty of design which enhances even the proudest home; convenience of electric clock operation (to reduce room temperature automatically every night and raise it to day comfort level every morning), doing away with the last manual job, winding the clock. A precision instrument throughout, made with all the care used in making a fine watch.

Here, in the Minneapolis-Honeywell Electric Clock Thermostat, is the ultimate product of half a century's experience in heat control engineering. Here is a superlative investment in the true economy of quality. Here is a thermostat to be proud of, now and during all the years of your life. May we demonstrate it to you? Telephone today.

The Ideal Thermostat
FOR AUTOMATIC HEAT
Takes the last trace of work out of the home now automatically heated. No winding. No forgetting. Gives you the ultimate in completely automatic heat control.

SKYSCRAPER BUILDER A. E. LEFCOURT, DIES

New York Real Estate Operator
Owner of Properties Valued
at \$250,000,000.

By the Associated Press.
NEW YORK, Nov. 14.—Abraham
E. Lefcourt, real estate operator,
who put up more than 30 skyscrap-
ers in the last 20 years, died yes-
terday after a heart attack. He
was 55 years old.

He began selling newspapers
when 12, operated a bootblack
stand, worked as clerk, bookkeep-
er, buyer and traveling salesman
for a dry goods firm and bought
out his employer when he was 25.
He gave up this business in 1922
and devoted his time to real estate
and building.

When his only son was 12, Lef-
court deeded him a \$10,000,000
piece of property. The son died
two years ago at the age of 17.

Although he had few outside in-
terests and devoted little time to
recreation, Lefcourt was a mem-
ber of the "Polar Bears," an or-
ganization of swimmers who break
the ice and plunge in at Long
Beach in the winter.

He is survived by his widow, his
daughter, Mrs. Mildred Regens-
burg, and his brother, Charles E.
Lefcourt.

Two years ago it was estimated
that the combined Lefcourt prop-
erties represented more than \$250-
000,000 in land values and im-
provements.

WOMAN WITH EYES BANDAGED KILLED IN APARTMENT PLUNGE

Fell From Sixth Floor Window at
Hollywood; She Had Feared Par-
tial Loss of Sight.

By the Associated Press.
HOLLYWOOD, Cal., Nov. 14.—
Mrs. W. P. McFarlane, 65 years old,
her eyes bandaged, fell or leaped
to death from a window of her
sixth floor apartment while her
husband slept early yesterday.

McFarlane told police she had
been dependent on the probable
loss of sight in one eye. She left
nothing to indicate she planned to
take her life and police think it
was possible that she might have
stumbled and fallen out the win-
dow, inasmuch as her eyes were
covered.

Mrs. McFarlane was the wife of
a wealthy retired Detroit Motor
Car body manufacturer. She and
her husband moved here two years
ago.

SHIP LOSES CAPTAIN AT SEA

By the Associated Press.
SAN PEDRO, Cal., Nov. 14.—William Evans, chief officer of the Pacific Ranger, which arrived here yesterday, said the Captain, Alfred E. Bailey, had disappeared at sea. Evans said Bailey was missed Oct. 31 in Mona Channel in the Caribbean Sea. His home was in Whitely, Yorkshire, England. When the disappearance of the Captain was noted, he said, an immediate search of surrounding water was made in the belief that he might have fallen overboard, but no trace of him was found.

70-Year-Old Woman Relieves Stomach Pain

"I suffered with pain in my stomach until I tried ACIDINE. One package relieved me," says Mrs. M. Montgomery, Los Angeles, Cal. "I can now eat anything I want if I take ACIDINE afterwards. ACIDINE is grand—don't make any changes in it—it is perfect now. I am 70 years old, but feel 30."

ACIDINE succeeds when many other remedies fail. Five ingredients help digest starchy foods and meats, neutralize burning acid, soothe irritated stomach linings and relieve gas, headache and sleeplessness from acidity. Find relief you never dreamed possible. Eat, drink, smoke almost anything you like. ACIDINE is guaranteed to relieve bad effects from acidity or money back. Don't suffer longer. Get ACIDINE at your druggist today.

SCOTT'S EMULSION of COD LIVER OIL

STOP BAD BREATH

Thousands of people afflicted with bad breath find quick relief through Dr. Edwards Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know.

Dr. Edwards Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects. Olive Tablets bring no gripping pain or disagreeable effects.

Dr. F. M. Edwards discovered the formula after 30 years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are a purely vegetable compound you will know them by their olive taste and the effect. 15c, 50c, 60c.

FUNERAL SERVICES FOR MORTON JOURDAN

Burial in Valhalla After Sermon by University Methodist Pastor.

The funeral of Morton Jourdan, widely known lawyer, was held at 3 p. m. today at the residence, 6121 Lindell drive. Mr. Jourdan, a former president of the Missouri Bar Association, died Saturday, aged 67, of a heart attack, while in a downtown physician's office.

Services were conducted by the Rev. John F. Caskey of University Methodist Church, South. Burial was in Valhalla Cemetery. Active pallbearers were Mr. Jourdan's law partner, Fred L. English, and Fred L. Williams, T. M. Pierce, E. T. Miller, Charles E. Sharkey, Walter N. Davis, Allen May and Roland P. O'Brien. Designated representatives of the St. Louis Bar Association were William T. Jones, W. Frank Carter, George H. Williams and Daniel G. Taylor.

Honorary pallbearers included leading members of the bench and bar, personal friends, some of them from outside St. Louis, and physicians representing the Missouri Medical Association, for which Mr. Jourdan was counsel. The list is: W. W. Alexander, J. D. Allen, Thomas L. Anderson, Judge Frank W. Atwood, Dr. Logan Alex. Williams, J. Brennan, R. R. Brewster, Senator Joseph Brogan, Dr. C. E. Burford, Dr. Louis Behrens, Judge C. A. Burney, Curtis Betts, Harry Block, R. Eugene Blodgett, George Block, D. N. Burrus, M. J. Burke, Charles U. Becker, Reginald Brewster, John P. Cabanne, George Capen, Sam Capen, Stanley Clarke, W. Palmer Clarkson, Gov. Henry Caulfield, Congressman John J. Cochran, Roscoe Conkling, Howard Cook, Lewis Horde Cook, Senator Michael Casey, Emmet J. Crouse, Judge James A. Cooley, Russell Desmont, Judge C. B. Davis, Senator Phil Donnelly, Judge G. R. Ellison, Judge Charles E. Ferguson, J. D. P. Francis, T. E. Francis, Judge C. B. Faris, John T. Fitzsimmons, A. E. L. Gardner, Dr. E. J. Goodwin, John L. Graves, Ernest Green, Judge Ernest Gantt, Fred H. Gehner, Frederick D. Gardner, Sam W. Greenland, Dr. Joseph E. Glenn, Lyman T. Hay, Judge Lawrence M. Hyde, Judge Berryman Henwood, Judge C. T. Hays, Robert Holmes, Howard Holmes, Charles M. Howell, W. E. Hudson, Lon O. Hocker, Thomas C. Hennings, Joseph T. Howell, George S. Johns, Dr. Jabez N. Jackson, J. M. Kurn, William T. Kemper, Senator Michael Kinney, J. O. King, Daniel N. Kirby, Dr. J. W. Love, Luc C. Losier, S. H. Liberman, John Lonsdale, Frank W. McAllister, Richard McCulloch, Joseph J. McAuliffe, Frank McDavid, Eloy Roy McKivrick, Clifford McMillan, Dr. A. R. McComas, Lee McDonald, Henry Miller, Charles H. Mayer, Dulaney Mahan, Charles T. Mansur, George A. Mahan, Leo Montgomery, Sam Mitchell, M. Menst, E. T. Noland, E. D. Nims, W. T. Nardin, Richard R. Nacy, Earl Nelson, Dr. Emmett P. North, Robert Otto, William R. Painter, M. M. Pindell, Judge William T. Ragland, Frank C. Rand, Roy W. Rucker, Otto E. Rugg, Perry Rader, Judge O'Neill Ryan, Judge Kimbrough Stone, Walter Smith, A. L. Shapleigh, John T. Sturges, Frank R. Tate, Guy Thompson, Ernest Tipton, E. H. Thurston, Scott Timmons, Judge J. T. White, S. Mayner Wallace, Frank Warner, Rolfe Wallis, George W. Wilson, Henry F. Woodward, F. O. Watts, Judge Henry Westhues, Murphy Townsend, Frank Austin, J. Warren Jones and Charles Mailhot.

Mr. Jourdan is survived by his widow, formerly Miss Lura B. Smith. Their daughter, Mrs. Byrd Benneman, died five years ago. The home on Lindell drive, of French architecture, cost \$100,000, and Mr. and Mrs. Jourdan had occupied it for only a year.

CREW OF SHIP SAVED AFTER COLLISION IN NORTH SEA

Damaged Dutch Steamer Towed Into Port; American Craft Aids in Rescue.

By the Associated Press.
FLUSHING, Holland, Nov. 14.—The American ship City of Alton yesterday rescued part of the crew which abandoned the Dutch steamer, or Rosenberg after it collided with the Greek ship Mount Helikon in North Sea and brought them here. A few hours later the damaged ship was towed into Flushing Roads and apparently was still afloat.

Most of the Rosenberg's crew was picked up by the Mount Helikon, which limped into Dunkirk after abandoning its voyage from Rotterdam to Buenos Aires.

The Rosenberg crew was surprised when told the badly damaged ship was still afloat. The City of Alton had picked up the master, chief engineer and several members of the crew before daylight, a few hours after they abandoned the ship as certain to sink. The Rosenberg, however, was located and towed into Flushing Roads by two tugs.

The crew reported the collision occurred in a dense fog.

Federal Reserve Governors Meet.
By the Associated Press.
WASHINGTON, Nov. 14.—The general banking and economic situation of the country was under discussion here today at the fall meeting of the governors of the 12 Federal reserve banks with the members of the Federal Reserve Board. The governors of the banks meet with the board four times a year to talk over matters pertaining to the Federal Reserve System. The sessions are executive.

Kill that COLD before it takes root!

Danger Lies In Letting a Cold Settle In the System!

Get at It Quick, from the Inside!

Never neglect a cold. Even a "slight" cold may be the start of something serious. Treat a cold quickly and treat it thoroughly. Don't fool yourself with half-way measures. A half-cured cold is a cold never cured.

A cold calls for a COLD remedy! Preparations good for half a dozen things besides cold can't be as effective as a cold calls for. Many popular remedies often only make the cold worse because they are constipating and also make the system acid.

A cold calls for internal treatment. A cold is an internal infection and only internal medication will reach it. Local, or external applications are only surface treatments and can't reach the root of the trouble or prevent the infection from spreading within the system.

The 4 Things Necessary
Ask your doctor and he will tell you, the wisest thing you can do when you feel a cold or gripe coming on is to take Grove's Laxative Bromo Quinine. This is the treatment a cold calls for. It is direct, internal and complete. It does the several things necessary. First of all, it opens the bowels, a vital step

told police he struck her with a chair and attempted to slash her with a knife.

Invalid Jumps to Death.
By the Associated Press.
CHICAGO, Nov. 14.—Mrs. Ida Sterling, an invalid for eight years, suffering she was a burden to her family. She plunged three floors to a concrete courtyard and was fatally injured yesterday. Before she died she whispered to the doctor: "I was a burden to them all. Now they'll be much better off."

7,047,000,000 FISH AND EGGS DISTRIBUTED BY GOVERNMENT

Total for Year 50,000,000 Under Previous Period; Many Game Varieties Included.
By the Associated Press.
WASHINGTON, Nov. 14.—Just to keep the supply plentiful, the Government distributed 7,047,000,000 fish and eggs last year. This figure, according to the report of the Bureau of Fisheries on the 13 months ended June 30, was nearly \$9,000,000 smaller than for the preceding period. Most of the distribution consisted of commercial varieties, though many million game fish were included. The bureau said the take of fur seal skins on the Pribilof Islands again exceeded 40,000, but was slightly less than in 1931. It added that the fishing industry suffered in common with other foodstuffs producers.

Little Chats About Your Health
No. 145—No. 128 Next Monday
An Old Babylonian Custom.

A writer who conducts a column of interesting facts in a weekly publication says that "about 2300 years ago in Babylon, before medical men were known, a law required sick persons to have their beds placed in the street and passers-by to stop and give them advice, based on either hearsay or experience, as to the best method of treatment."

It seems ridiculous that with the tremendous strides made by medicine there are people today who are willing to take medical advice from others who are totally unqualified to be of help to them.

Trust your physician to protect your health and call him promptly whenever sickness occurs.

Let us fill your prescriptions.

ECONOMISTS URGE RECONSIDERATION OF DEBTS TO U. S.

Proposal Indorsed by Group of 51 Leaders Including Ex-Gov. Smith, Dr. Butler and J. M. Cox.

By the Associated Press.
NEW YORK, Nov. 14.—An extension of the moratorium on international debt payments and "re-consideration and readjustment of the inter-governmental debt-funding agreements," are urged in a report made public today by the committee for the consideration of inter-governmental debts.

The committee is headed by Alfred P. Sloan Jr., president of General Motors Corporation.

The report was drawn up by a group of economists. It was indorsed, the announcement said, by 51 business, farm and labor leaders, including Alfred E. Smith, former Governor of New York and Democratic nominee for President in 1928; Nicholas Murray Butler, president of Columbia University; George W. Wickersham, former Attorney-General, and James M. Cox, former Governor of Ohio and Democratic nominee for President in 1920.

"A reasonable readjustment of inter-governmental debts," the report said, "promises far greater material benefits to the American people than the direct income which would be received if payment could be made in full."

Effect of Readjustment.
Pointing out that an increase of 1 per cent in the nation's annual income would amount to more than twice the current annual debt payments, the economists say that "a readjustment of these debts in the light of present world conditions, suited both to the capacity of our debtors to pay and to our ability to receive—especially if it involved favorable concessions to American trade—would go far toward the stimulation of world-wide and American economy recovery."

"Employment and the earnings of American labor would be increased," the report continues. "The profits of agriculture and industry would expand."

"Security of private American investments in European countries, and of foreign bonds now held by American investors, would be strengthened."

"Furthermore, through this improvement in business, tax revenues would automatically increase, while the burden of taxation upon the people would be reduced."

Gain for American People.

The report concludes as follows: "A realization of the consequences to American well-being of excessive demands upon our debtors makes a reconsideration of existing debt agreements necessary."

"By a sensible readjustment of these agreements which would stimulate a revival of business, the American people would stand to gain far more in dollars and cents through a revival of trade with Europe than they would gain in an attempt to collect the last dollar."

The report's three recommendations are:

"1. That the elected representatives of the American people recognize this vital and delicate problem as a non-partisan issue to be settled strictly on its merits in the best interests of the United States;

"2. That Congress authorize, by the re-creation of the World War Foreign Debt Commission or otherwise, such reconsideration and readjustment of the debt-funding agreements as would best advance the interests of American trade and promote American prosperity;

"3. That Congress extend the moratorium for a sufficient period to give time for these negotiations."

Time for Scientific Research.
Sloan said of the report, which will be presented to the 700 members of the committee:

"It is high time that this sort of concerted attempt be made to bring to bear on crucial economic problems the results of authoritative, unprejudiced scientific research and opinion."

"The effort in this case takes on added significance from the fact that it has been checked against everyday business experience by the industrialists and business men who have indorsed the findings of the economists."

The report is signed by James W. Angell, Columbia professor; Ernest Minor Patterson, University of Pennsylvania professor; Edwin R. A. Seligman, Columbia professor; Frank W. Taussig, Harvard professor; Rufus S. Tucker, consulting economist; Jacob Viner, University of Chicago professor; and John Parke Young, Occidental College professor.

The first public notice of the committee came last Sept. 11, when Sloan announced a temporary organization and said "the problem is a business problem and only a business solution will satisfy the great mass of the American people."

He said the committee would approach the problem asking this question: "What will it mean in dollars and cents to America? What will it mean in jobs, increased production, enlarged markets?"

On Sept. 26 the formation of a permanent organization was announced, with most of the signers and indorsers of today's report permanent officers.

HELD FOR KILLING BROTHER

Slayer Says Victim Came Home Drunk, Started Fight.
By the Associated Press.
TAYLORVILLE, Ill., Nov. 14.—A coroner's jury yesterday returned a verdict accusing William Shedy, 54 years old, farmer, liv-

ing near Morrisville, of stabbing to death his brother, George, 52. George Shedy's body was found on the floor in the Shedy home early yesterday. William said his brother was fatally injured in a fight. He said he stabbed him in self defense. Mrs. Sarah Shedy, mother of the brothers, said George Shedy came in the house late Sat-

urday night apparently intoxicated. She said she did not hear the fight.

Career of Franklin D. Roosevelt; "Red Tape Be Damned," His Motto In Meeting Navy's Needs in War

As Assistant Secretary He Says He Broke Enough Rules "to Send Me to Jail for 999 Years."

CHAPTER IV.
YOUNG, ambitious, tenacious, Franklin D. Roosevelt came to grips with Tammany Hall soon after he entered the New York State Senate. And he won. With his pleasing personality and his ringing voice, he became a popular member of the legislature. But bigger things called, and Roosevelt headed for Washington. (Copyright, 1932, by the Associated Press.)

NEW YORK, Nov. 14.—Franklin D. Roosevelt was a handsome man as he began his public career, and possessed of a charming personality.

The legislative correspondent of the New York Times, on the occasion of Roosevelt's first day in the State Senate, described him as follows: "Senator Roosevelt is less than 30. He is tall and lithe. With his handsome face and his force of supple strength he could make a fortune on the stage and set the matinee girl's heart throbbing with subtle and happy emotions. But no one would suspect behind that highly polished exterior the quiet force and determination that now are sending cold shivers down the spine of Tammany's striped mascot."

A Contemporary Picture. Again, when he was Assistant Secretary of the Navy during the war, Roosevelt's presence inspired editorial comment, this time in the New York Tribune. "Roosevelt has a bearing," chronicled Ralph Block, "that even William Faversham might envy. His face is long, firmly shaped and set with marks of confidence. There are faint wrinkles on a high straight forehead. Intensely blue eyes rest in light shadow. A firm thin mouth breaks quickly into a laugh, open and freely. His voice is pitched well, goes forward without tripping."

And today Roosevelt still laughs quickly. To hear him laugh is to want to laugh yourself.

In Navy Department. Roosevelt's appointment as Assistant Secretary of the Navy Under Josephus Daniels followed his enthusiastic support of Woodrow Wilson in the presidential campaign of 1912. At the convention in Baltimore, when Champ Clark passed the majority mark but failed to reach the two-thirds necessary for nomination, Roosevelt helped turn the tide toward Wilson.

It was natural that, with his keen interest in naval affairs and his unbounded admiration for Wilson, Roosevelt should plunge wholeheartedly into his new duties. In connection with his first year he likes to tell the following story about William Jennings Bryan, then Secretary of State:

"Back in 1912 a certain Secretary of State rushed into my office in an excited state of mind. 'I've got to have a battleship,' he said. 'White people are being killed in Haiti and I must send a battleship there within 24 hours.'"

"Mr. Bryan," I said, "efficient as our navy is, your request is impossible of fulfillment. Our battleships are in Narragansett Bay and I could not get one to Haiti in less than four days, steaming at full speed. But I have a gunboat somewhere in the vicinity of Guantanamo, and I can get her to Haiti in eight hours if you want me to."

"That is all I wanted," Mr. Bryan answered. He paused a moment and then added: "Roosevelt, after this when I talk about battleships, don't think I mean anything technical."

The full responsibility of running the navy fell frequently upon the Assistant Secretary's shoulders, since it was not unusual for Dan-

in co-ordinating transport movements, settling labor disputes arising from the sudden frenzy of navy yard activities, and forreting out sources of much-needed supplies.

In the war zone he was instrumental in the laying of a 250-mile line of mines that bottled up the German U-boats in the North Sea.

The navy swelled rapidly from 38,000 to more than 500,000 men during this time, and in keeping the huge expansion under control it was necessary for Roosevelt to slash through reams of red tape. Often he would have construction jobs done long before contracts were formally awarded and supplies bought before the money was appropriated. He admitted he broke enough rules and regulations to put him in jail for "999 years."

But when his more timid colleagues remonstrated his succinct comment was: "Red tape be damned. The nation is at war."

(In tomorrow's article Roosevelt

WILD GAS WELL SPOUTING

20,000,000 CUBIC FEET DAILY
Shaft Blows Up Two Hours After Being Capped Near Conder.

By the Associated Press.
COUDERSPORT, Pa., Nov. 14.—A gas well which blew up after being capped, is spouting 20,000,000 cubic feet of gas daily in the Hebron Dome field near here.

The well came in Saturday and was capped at 3 o'clock. Two hours later it blew up, shattering new steel rigging, five 30-foot joints of 24-pound casing, the mast and other equipment. A short time earlier 13 men were working near it. No one was near when it blew.

New rigging will be needed to cap the spout, which has not

caught fire, officers of the Tyoga Oil and Gas Co. of Jersey Shore, Pa., said. Ten days will be required to do the work.

AUCTION OF ART COLLECTION

LEFT BY ZIEGFELD'S MOTHER

Articles Which Were Height of Fashion 50 Years Ago Sold for Benefit of Estate.

Special to the Post-Dispatch.
CHICAGO, Nov. 14.—Property of the late Mrs. Florens Ziegfeld Cr., a collection of rare relics, art pieces and furniture, went on the auction block today. The objects were placed on sale at the old family home where Mrs. Ziegfeld lived for 50 years. She died recently, unaware of the fact that her son, Florens Ziegfeld, originator of the Follies, had preceded her in death by several months.

To be sold for the benefit of the

estate, the collection includes ornately upholstered chairs, heavy tapestries, oriental rugs, marble statuettes, lamps, lace curtains and other appointments which were in the height of fashion a half century ago. Also to be auctioned off are portraits of famed stage folk, including Lillian Russell, Lottie Collins, Arthur Hartman and Titto Ruffo.

ABORTION of Colds

(Try this with lemon juice)

Do you sometimes get colds that hang on for days? That's because the remedy used does not neutralize the cold symptoms. Try the lemon juice treatment and you'll find those stubborn colds broken up and gone within a few days. Squeeze two full-size lemons in a glass of very hot water, to be taken preferably at bedtime. Two hours before, start taking a tablet of Pape's cold compound each hour. After the third tablet take the lemon juice and hot water without sugar, and go to bed, well-covered. Round sleep will follow, and the cold will often be aborted by morning. The lemon juice treatment neutralizes acidity, but you must have the cold compound to clear the head, dry the nasal passages, and allay any fever. Any druggist has Pape's cold compound; it is perfectly safe, and a tablet will check a cold at any time.

What grows too thin to have a POST-DISPATCH Lost Ad restore some valued keepsakes that "you never expected to see again." It is being done every day. Call Main 1111.

A THIRD OFFER TO FOOTBALL FANS

\$250.00 IN CASH

or Trips to Big Games For Naming Winning Football Teams

Again the Post-Dispatch offers football fans an invitation to compete for \$250.00 in cash prizes or trips to important football games.

Listed on this page are fifteen games scheduled for Friday and Saturday, November 18 and 19. The fifteen fans who name the most winners of these games; come nearest to estimating the correct scores, and give the most logical reasons for their selections, will share in awards totaling \$250 in cash or trips to the games specified in this announcement.

These Awards Will Go to Successful Participants

- First Award** **\$100.00 in Cash**
or 4 tickets and transportation to the Drake-Marquette game at Milwaukee, November 26.
- Second Award** **\$50.00 in Cash**
or 4 tickets and transportation to the Missouri-Nebraska game at Lincoln, Nebraska, Thanksgiving Day.
- Third Award** **\$25.00 in Cash**
or 2 tickets and transportation to the Missouri-Nebraska game at Lincoln, Nebraska, Thanksgiving Day.
- Fourth Award** **\$15.00 in Cash**
or 6 tickets to the Washington-St. Louis game, Thanksgiving Day.
- Fifth Award** **\$10.00 in Cash**
or 4 tickets to the Washington-St. Louis game, Thanksgiving Day.
- Ten Awards of** **\$5.00 in Cash**
or two tickets to the Washington-St. Louis game, Thanksgiving Day.

Successful participants may choose *EITHER* the cash award or trip to game. The awards will be announced in the Post-Dispatch Sports Section, Tuesday, November 22, and may be obtained by calling at the Post-Dispatch Sports Department. Persons entitled to awards who live out of town may obtain them by writing to the Football Scores Editor and specifying whether they prefer cash or tickets.

Here Are the Simple Rules:

The Football Scores Competition is open to everyone except Post-Dispatch employees and members of their families.

Awards will be made to persons who name the largest number of winners; come nearest to estimating the scores of the fifteen games listed in this announcement, and give the best reasons for their preferences.

The fifteen games figuring in the competition will be listed in the Post-Dispatch Sports Section, up to and including Thursday, November 17. The competition will close at midnight, November 17. Entries to be considered must be postmarked before that time.

A brief letter giving your reasons for naming your preferences must accompany your list of selections.

It is not necessary to use the coupon in the Post-Dispatch. You may use a piece of paper the same size. The coupon is printed merely for your convenience.

You need not buy the Post-Dispatch to compete. The Post-Dispatch may be examined at public libraries or in the Business Office of the Post-Dispatch.

Only one list may be submitted by each participant.

In the event of a tie for any award, the full amount of the award tied for will be paid to each tying participant.

The Football Scores Competition Editor will be the sole judge of entries submitted, and his decision as to winners must be accepted as final.

Entries Should Be Mailed to

Don't Pay If This Falls To Knock Your Cold In a Few Hours

Feel Like a New Person
Almost Before You Know It

HILL'S Cascara Quinine is GUARANTEED to knock a cold in a jiffy. To relieve the pain, to break up tightness. If it fails, you pay nothing. This guarantee is made to prove that the surest relief is to go back to first principles and use something that you know does the work. Take two tablets now. Then follow directions on box. Drink lots of water, too—that's all. You'll feel like a new person almost before you know it. Pain eased, congestion broken; your mind cleared and yourself ready to go back on the job with a wallop.

That's because Hill's is a scientific formula made to DO ONE THING WELL: to knock colds in a hurry—not to cure a score of different troubles.

Get a package for a few cents at any drug store. Your money back if it fails. Try it—you'll be glad that you did.

DR. BUTLER DECLARES G. O. P. DEAD IF IT DOESN'T REFORM; APPEALS TO YOUNG LEADERS

Columbia U. Head Outlines Program for Forward-Looking Liberal Party—Says Old One Is Morally, Politically Bankrupt.

By the Associated Press.

NEW YORK, Nov. 14.—Dr. Nicholas Murray Butler, president of Columbia University, said yesterday that the Republican party, unless reorganized under constructive and courageous leadership, would soon pass out of existence and be replaced by a "truly liberal party."

He declared the hope of the party rested with its youth. In a formal statement, he said that if the younger Republicans would "exert themselves to seek and to produce constructive, forward-facing and liberal leadership, the party, despite its overwhelming defeat, may be quickly reorganized and given new strength and new spirit for another generation of public service."

"If something of this sort cannot be done," he went on, "then the

Republican party will have gone the way of the Whig party, and will soon pass out of existence because of its incapacity to face the future with understanding and with courage. Should that come to pass then a new and truly liberal party will quickly be born, composed of the very best elements of the Republican and Democratic parties."

Program of Regeneration.
Dr. Butler, who is 70 years old, outlined a program which he said a "regenerated Republican party, or if necessary a new liberal party," must adopt. Budgets must be balanced, he said, "and not merely talked about or lamented." Tariff walls must be torn down, quotas removed and inter-governmental war debts must be readjusted "in the spirit of the agreement of Lausanne signed on July 8 last, in order that the burden which these war debts now impose may be lifted from the backs of the American people."

A system of monetary control based on international co-operation and offering to the world the same service that the Federal Reserve System renders to the 48 states, was proposed by Dr. Butler to replace the world's "various and multiform monetary systems."

In this connection he said the question must be "fairly faced" as to whether the use of silver, under international control, as a basic monetary metal, will not assist to relieve the present economic and financial situation.

Economic Interdependence.
"It is absolutely necessary," he continued, "to get out of men's heads everywhere the false idea that any group of people constitute a self-governing nation, they also constitute a self-dependent economic unit. They do not. All that they do is to qualify as a member of an international and co-operative economic organization, the outgrowth of modern industrial conditions and of newly discovered means of communication, the object of which will be to bring prosperity to each and all, and to assure its continuance so far as that is humanely possible under the operation of established economic law."

Dr. Butler disclosed that a "group of the ablest and most disinterested men" in the party met at a private conference more than a year ago and agreed on the points stated.

"It was the belief of every member of the group," he said, "that certain party defeat in November, 1932, stared them all in the face, but that nothing could be done to avert it and nothing to improve the party's future position until that defeat had taken place and been recorded. It is that point which we have now reached."

G. O. P. "Morally Bankrupt."
Declaring last Tuesday's balloting represented an "overwhelming anti-vote and only in relatively small degree a pro-vote," Dr. Butler said:

"The simple fact is that since the summer of 1919 the Republican party, as represented by the vast majority of its officeholders at Washington, has been moving steadily toward intellectual, moral and political bankruptcy. It has managed to get on the wrong side of every important question which confronts the anxious American people."

In declaring the rank and file of the party crave constructive and courageous leadership, Dr. Butler said "the history of the movement for the repeal of the eighteenth amendment certainly proves that fact."

ATTEMPT PLANNED TO REPEAL ARKANSAS PROHIBITION LAW

Wets and Drys Prepare for Fight at 1935 Session of Assembly.

By the Associated Press.
LITTLE ROCK, Ark., Nov. 14.—A campaign for repeal of the Arkansas "bone dry" law by the 1935 Legislature has been disclosed by State Senator Edward B. Dillon of Pulaaski County.

Saying he expected modification of the Volstead act at the December session of Congress and eventual repeal of the eighteenth amendment, Senator Dillon added that a group of Legislators would make a determined effort in the forthcoming legislative session to strike the State's prohibition law from the statute books.

J. H. Glass, superintendent of the Arkansas Anti-Saloon League, told the North Arkansas Conference of the Methodist Episcopal Church, South, at Fort Smith recently that he expected a repeal attempt in the next Legislature, and urged churchmen to join in a fight to prevent its success.

The Arkansas "bone dry" law was passed by the 1915 Legislature and became effective Jan. 1, 1916.

FORMER MAJOR KILLED BY AUTO

Frederick Kessel, Ex-Marine, Victim of Chicago Accident.

CHICAGO, Nov. 14.—Maj. Frederick Kessel, 52 years old, former United States Marine Corps officer, was killed yesterday when crushed between an automobile and a truck. Police held John Owens, Negro, while they investigated the accident. They said that Owens, intoxicated, swerved his car into a parked automobile and the latter car careened against the truck, pinning Kessel. Kessel, his relatives said, at one time was Judge Advocate-General at Norfolk, Va., for the marines.

GERMAN CONSUL BACK AFTER VISITING HOME

Dr. Georg Ahrens Reports
Finding Improved Sentiment
in Native Land.

Dr. Georg Ahrens, German Consul here since 1925, who will leave next month to become counselor of the German legation at Mexico City, returned last night from a five-month sojourn in Berlin. He and Mrs. Ahrens and their two young sons are at the Gaiety Hotel. On the steamer Deutschland they received the returns of the German election of Nov. 4 and of the American election.

Public feeling in his native land is improving, although the old social life has disappeared, and Hitlerism and Communism both face a critical stage, as viewed by insiders, Dr. Ahrens declared.

"General sentiment of the people is somewhat better," he related. "They have a little more courage than two years ago, when I was home last. It is difficult to explain, but it is a fact. Symptomatically the fact that people formerly tended to be nervous and short in their answers because of the pressure on them, but now you meet kindness everywhere."

People Admit Being Poor. "Social life has declined; people finally have become accustomed to the lower standards of life. Everyone confesses being poor, without shame, but happily, relatively speaking."

"The crucial question in Germany today is the Constitution. We want to stick to the Weimar Constitution of 1919 as the safe basis of our future political and economic life, but every party realizes the Constitution needs changes. The main change we are looking forward to is a strengthening of the power of the President and curtailment of the power of the many parties. We have seen that the Government needs real power—a safe majority which cannot be ousted by the Reichstag any time it desires."

"From the point of view of strict parliamentary rule, Chancellor von Papen is weak because he lacks a majority in the Reichstag, but, taking the general sentiment, I feel there is a latent movement in his favor, to give him at least a longer chance. People are tired of the constant changes of government. Everybody concedes von Papen is a man of really unusual courage and energy."

Hitler Losing Ground. Results of the recent German election and other factors indicate that Hitler, the National Socialist leader, has been losing ground, Dr. Ahrens said. In fact, Hitler lost votes to the Communists, at the other end of the political scale. One of von Papen's big tasks is to overcome communism, the Consul asserted. Asked whether communism had a chance to succeed in Germany, Dr. Ahrens replied emphatically: "No. I think the country may have seen the turn of the tide against both Hitlerism and communism."

Dr. Ahrens would not comment on the European debt problem. He remarked that the American election had been followed in Germany with interest equalled only by that of 1918, when President Wilson was re-elected.

Until his successor, Reinhold Freytag, arrives from Germany about Dec. 1, Dr. Ahrens will remain Consul here. He and Freytag are old friends. Freytag is a grand nephew of the German poet, Gustav Freytag. Dr. Ahrens has made many friends in St. Louis and expects to visit here in the future on trips between Mexico City and Berlin.

FAILS TO OBSERVE BIRTHDAY R. L. STEVENSON DIED TO HER

Widow of W. Bourke Cockran She
Misses Celebration for First in
40 Years.

NEW YORK, Nov. 14.—The birthday died to her in 1891 by Robert Louis Stevenson was not observed yesterday by Mrs. Annie Ida Cockran for the first time in 41 years.

The famous document that fixed things up for a little girl whose birthday came on Christmas provided specifically that if she ever failed to observe her adopted birthday, the rights to it should be transferred to the President of the United States.

But Mrs. Cockran is not worried. She has a good excuse (the death of a close friend) and she plans to hold a party as soon as she returns to her city apartment from the Long Island home of friends. That dead, drawn up in Samson after H. C. Ide, American Land Commissioner, told his friend Stevenson about the plight of his daughter, has been a serious thing to Mrs. Cockran.

Drawn up with seal affixed and two witnesses looking on, it charged her "to use my birthday with moderation and humanity." It gave her Nov. 12 as a birthday "to have and hold, exercise and enjoy in the customary manner, by the sporting of fine raiment, eating of rich meats and receipt of gifts, compliments and copies of verses, according to the manner of our ancestors."

For 40 years she followed out those provisions to the best of her ability. When her husband, Congressman W. Bourke Cockran, was living, the celebrations at their Fort Washington home included roast pig in famous fashion.

Paducah Adopts Manager Plan. LOUISVILLE, Ky., Nov. 14.—Paducah adopted the city manager form of government. Final tabulation of Tuesday's vote shows. The vote was 4439 to 2139. The city manager plan will succeed the commission form of government effective Jan. 1, 1934. Winchester, in Central Kentucky, defeated the city manager plan.

PART TWO.

DEMOCRATS WILL GET 7500 STATE JOBS UNDER PARK

But School Department Will Be Reorganized After New Governor Takes Office at Jefferson City.

FIRST TIME THIS HAS HAPPENED SINCE 1910

Task of Caring for Office Seekers Will Be More Difficult if He Keeps Promise of Economy.

By BOYD F. CARROLL.

Jefferson City Correspondent of the Post-Dispatch.

JEFFERSON CITY, Nov. 14.—Then Governor-elect Guy B. Park, Platte City assumes his duties as head of the executive branch of the Missouri State government Jan. 1, a governmental field new to him is the most difficult task at the outset of his administration, and the one that will be kept before him most insistently, will be the selection of appointees from among the thousands of Democratic applicants who will appear.

The Democrats regained control of all of the elective State executive departments for the first time since 1915, in the Democratic landslide in the election last Nov. 3. The impending reorganization of these departments, with the exception of the department of State, Superintendent of Schools Charles Lee, a Democratic holdover, will affect about 8000 jobs.

About 7500 of these jobs are held, directly or indirectly, through appointments by the Governor, exclusive of the State-controlled police departments in St. Louis and St. Joseph.

This virtually complete reorganization of the State department, Bureau, commissions and institutions, coupled with economic conditions and years of political unemployment for Democrats, will attract thousands of Democratic applicants, ready to prove their political faithfulness in the reorganization, and willing to accept re-appointments in the form of State jobs.

The horde of job seekers will be greater than at the beginning of any of the last three Republican administrations, due to conditions of the extent of the turnover.

Predecessors Kept Busy.

Even with better conditions prevailing, Park's three Republican predecessors, and their offices, spent a large part of the time in the first months of their administrations, interviewing job seekers and handling thousands of others applying for or recommending appointments. Governors who walked boldly through the front door of the Capitol on inauguration day, soon learned to go in and out of the building to avoid waiting lines of applicants.

The distribution of patronage can be rendered even more difficult if Park recommends in his first message to the Legislature that Democratic-controlled body with job-hungry constituents carries out his recommendations, measures to put into effect his protection pledges of economy in State government and a reduction in the number of employees. With fewer jobs, the pressure of the applicants will be increased.

When Park was selected by the Democratic State Committee last Nov. 17, as the Democratic nominee for Governor, to fill a vacancy in the ticket caused by the death of Francis M. Wilson of Platte City, he received no cheers from his supporters for that part of his acceptance speech in which he said the State had "too much hired help" and "we must discharge some of it and not employ others to take the place."

In campaign speeches Park declared that in his administration the public crib is not going to be a hog trough, and said he would drive out of the Capitol all of the corrupt hordes with nothing to do. He urged consolidation of State boards and departments, but proposed no specific measures.

Extent of Patronage.

In the five elective State departments, other than the Governor's, there are about 550 jobs, based on present laws and appropriations. These departments are under the Secretary of State, State Auditor and State Treasurer, Attorney-General and Superintendent of Schools. T. J. Atter, Charles A. Lee, a Democrat elected in 1910, is likely to make new changes in his department.

Individual department heads, members of boards, bureaus and commissions controlling 40 of the departments are appointed by the Governor, most of the appointments being subject to confirmation by the State Senate. The departments, some with several sub-divisions, have about 7500 employees. A few of the departments are bi-partisan by law, but most of them there is no restriction as to politics.

Eleven of the boards appointed by the Governor control 31 State

Task of Caring for Office-
Seekers Will Be More Diffi-
cult if He Keeps Promises
of Economy.

By BOYD F. CARROLL
Jefferson City Correspondent of the
Post-Dispatch.

JEFFERSON CITY, Nov. 14.—When Governor-elect Guy B. Park of Platte City assumes his duties as head of the executive branch of the Missouri State government Jan. 9, in a governmental field new to him, the most difficult task at the outset of his administration, and the one that will be kept before him most persistently, will be the selection of his appointees from among the thousands of Democratic applicants who will apply.

The Democrats regained control of all of the elective State executive departments for the first time since 1916, in the Democratic landslide in the election last Nov. 8. The impending reorganization of these departments, with the exception of the department of State Superintendent of Schools Charles L. Lee, a Democratic holdover, will affect about 8000 jobs.

About 7500 of these jobs are held, directly or indirectly, through appointments by the Governor, exclusive of the State-controlled police departments in St. Louis and St. Joseph.

This virtually complete reorganization of the State departments, boards, bureaus, commissions and agencies, coupled with economic conditions and years of political unemployment for Democrats, will attract thousands of Democratic applicants, ready to prove their loyalty and faithfulness in the recent campaign, and willing to accept re-wards in the form of State jobs.

The horde of job seekers will be greater than at the beginning of the last three Republican administrations, due to conditions of the extent of the turnover.

Predecessors Kept Busy

Even with better conditions pre-
siding, Park's three Republican
predecessors, and their office
staffs, spent a large part of their
time in the first months of their
administrations, interviewing job
seekers and handling thousands of
letters applying for or recommend-
ing appointments. Governors who
walked holdily through the front
door of the Capitol on inauguration
day, soon learned to go in and out
of the passageways to avoid waiting
for applicants.

The distribution of patronage
to be rendered even more diffi-
cult if Park recommends in his
first message to the Legislature—
that Democratic-controlled
bodies with job-hungry constituents,
carry out his recommendations.
Measures to put into effect his pre-
dication pledges of economy in
State government and a reduction
in the number of employees. With
fewer jobs, the pressure of the ap-
plicants will be increased.

When Park was selected by the
Democratic State Committee last
Oct. 17, as the Democratic nominee
for Governor, to fill a vacancy in
the ticket caused by the death of
Francis M. Wilson of Platte City,
he received no cheers from his au-
dience for that part of his accept-
ance speech in which he said the
State had "too much hired help,"
and "we must discharge some of it."
He did not employ others to take their
places.

Extent of Patronage

Of the five elective State depart-
ments, other than the Governor's,
there are about 550 jobs, based up-
on present laws and appropriations.
These departments are under the
control of the State Auditor, State
Treasurer, Attorney-General
and Superintendent of Schools. The
latter, Charles A. Lee, a Democrat,
elected in 1930, is likely to make
few changes in his department.
Individual department heads or
members of boards, bureaus and
commissions controlling 60 of the
departments are appointed by the
Governor, most of the appoint-
ments being subject to confirma-
tion by the State Senate. These
departments, some with several
divisions, have about 7500 em-
ployees. A few of the departments
are bi-partisan by law, but for
all of them there is no restric-
tion as to politics.

COLOGNE NEWSPAPER SAYS
FRANCE HAS ARMY AT GATES
OF GERMANY READY TO MARCH

Asserts 5,000,000 Men Could Be Mobilized—
Lists Air, Artillery and Infantry
Equipment.

By the Associated Press.
COLOGNE, Germany, Nov. 14.—In an exhaustive discussion of French military organization and equipment, to be presented in a special issue tomorrow, the Koelnische Illustrierte Zeitung, a weekly circulated internationally and throughout Germany, reaches the conclusion that "before the gates of Germany there stands the best equipped army in the world, ready to march."

Statistics and maps are set forth, along with photographs, quotations from the sayings of French statesmen, and analysis by German military experts.

The publishers of the weekly—the English equivalent of the title is the Cologne Illustrated newspaper—assert that much of the material they present never has been printed.

French Preparedness

Outstanding among the state-
ments are these:

1. That within a week and without special parliamentary authoriza-
tion, France could put into action 44 infantry, five cavalry and four air divisions.
2. That the French military budget does not show what the na-
tion is spending on armaments.
3. That the French fleet "has
become a tremendous, methetic pro-
gram, thanks to a long-term naval
program which though never sanc-
tioned by the Chamber of Deputies,
is being carried out tacitly year
after year."
4. That the French air fleet has
a radius of activity extending "far
beyond Germany, the channel and
England, and beyond the Italian
plains of the Po, including Turin
and Milan."
5. That French army maneuvers
in recent years "have evinced a
clearly aggressive tendency."
6. That for more than a century
France has not been "swayed from
the goal of establishing a military
hegemony over Europe, and that
the "French system of alliances
rests on Europe like a nightmare."

Equipment of Forces

Once general mobilization has
been ordered, the writer continues,
the 44 infantry divisions would
be available, and one more
cavalry division—making a total of
educational, eleemosynary and
penal institutions.

The State Highway Commission,
a bi-partisan commission of our
members appointed by the Gov-
nor, controls more jobs than any
other board. At present the High-
way Department, controlled by the
commission, has 2357 regular em-
ployees. In addition there are 4575
part-time department employees,
who were not included in the esti-
mate of the number affected, as
most of the part-time employees are
working temporarily under an un-
employment relief program. Con-
tractors building State roads under
commission contracts employ be-
tween 9000 and 10,000 men who,
under present practices, are se-
lected by the contractors.

Two Highway Jobs Open

Park can appoint two members
of the Highway Commission as soon
as he assumes office, as two of the
present members have not been
confirmed by the Senate. Samuel
B. McPheeters, Democrat of St.
Louis, whose term expires Dec. 1,
1935, and Charles Ferguson, Rep-
ublican, of Wilkes-Barre, whose
term expires Dec. 1, 1937, were
appointed by Gov. Caulfield after
the 1931 legislative session. They
could be replaced by the new ex-
ecutive merely by sending their
names to the Senate.

The other two members are
Chairman William F. Phares, Rep-
ublican, of Maryville, whose term
expires Dec. 1, 1935, and R. S.
Brownlee, Democrat, of Brookfield,
whose term expires Dec. 1, 1933.
These two appointments have been
confirmed.

Full Control of the Public Service

Full control of the Public Service
Commission, which regulates
public utilities, could not be taken
over by the new administration un-
til April, 1935, unless some of the
present five members agreed to re-
sign. Appointments of all five
commissioners have been con-
firmed. The commissioners, and the
date of expiration of their terms,
are: Chairman
Milton E. Stahl, Republican, St.
Louis, April 15, 1935; J. Fred
Hull, Republican, Maryville, April
15, 1935; Almon Ing, Republican,
Poplar Bluff, April 15, 1933;
George H. English, Democrat, Kan-
sas City, April 15, 1937; J. H. For-
ster, Democrat, St. Louis, April 15,
1937.

The law does not require that
the commission be bipartisan, but
successive Governors, since its
creation in 1913, have adhered to
a policy of placing two minority
party members on the commission.
An executive who did not care to
follow the precedent could choose
all of the five Commissioners from
the same political party.

Other Places for Job Seekers.
Among other important depart-
ments to be reorganized are the

FRENCH PREPARE
3-POINT PROGRAM
OF DISARMAMENT

Cabinet Approves Proposal,
Which Will Be Sent to
Geneva Conference—
Proportional Naval Cut.

By the Associated Press.
PARIS, Nov. 14.—The statement
of France's completed final details
of a three-point armament plan to-
day.

The detailed document, entitled
"A Plan for Organization of
Peace," is ready to send to Geneva
for presentation to the conference.
It provides for treaties of con-
sultation, security and arms equal-
ity.

The Council of Ministers gave its
formal approval today to the text
of the proposal. The document
will be published today.

"This plan indicates for the first
time, clearly and loyally before the
world, what we are ready to do,"
said Joseph Paul-Boncour, Minis-
ter of War and delegate to the dis-
armament conference. "The plan
brings great hope to the disarma-
ment conference, whose failure
would be a signal for a re-armament
race which sooner or later would
be a race toward war."

Premier Herriot and members of
the French delegation spent most
of last evening revising the plan.

What the Plan Proposes.

An official summary of the new
French plan enunciates the policy
of discontinuing economic and fi-
nancial relations with an aggressor
nation.

The summary says that, based on
the declarations of Secretary of
State Stimson that armed conflict
interests all signatories to the
Briand-Kellogg pact, who could
not adopt neutrality toward an ag-
gressor, chapter one has for its
object to have this principle ac-
cepted by all powers.

In case of violation of the pact,
the summary continues, the powers
should discontinue their economic
and financial relations with an
aggressor.

Other outstanding provisions are
these:

A mutual military assistance
system is recommended for Eu-
rope. This would automatically
begin with any attack or invasion.
The decision as to which na-
tion involved in the aggression
would be left to a commission
whose members would be appoint-
ed in time of peace from among
diplomatic representatives and
military attaches accredited to the
country which considers itself the
victim of aggression.

General Arbitration Act

It is further proposed that all
European Powers should adhere to
a general arbitration act. If any
signatory should refuse to obey
an arbitral judgment, the act
would provide for a dispute, the
other affected country could ap-
peal to the League of Nations coun-
cil which would decide the proper
measures to be taken.

The council's decision would be
by majority vote and the con-
tracting Powers would extend as-
sistance in carrying out that deci-
sion.

The plan provides for creation of
a "first aid" international force
which would include contingents of
specialized troops selected from
various countries, and armed with
weapons and materials which na-
tional armies will be prevented
from having.

This force would be placed at
the disposal of the League of Na-
tions, ready to act immediately.

Armies of Uniform Type.

In fulfillment of the Hoover
principles of reducing the offen-
sive character of armies, the con-
tracting Powers on the Continent
of Europe would progressively
transform their forces to a uniform
type—a national army of short
term service, with a limited num-
ber of effective.

In fixing the number of effec-
tives, special geographical and
other conditions of the countries
affected would be taken into con-
sideration, as well as the system of
military instruction existing in each
country, and the size of each coun-
try's police force.

It is stipulated that national ar-
mies may not possess powerful
transportable war materials.

The text emphasizes that France
is convinced that a unanimity of
opinion exists to support President
Hoover's idea that the main goal
of the disarmament conference is
to reinforce defensive forces by
reducing the forces of aggression,
and that therefore the French plan
is based on the formation of mili-
tary organizations which make ag-
gression more difficult.

As to German Claims

"It is only by this method," the
text reads, "that we think we will
be able to find an equitable solu-
tion of the German claim to
equality rights, by the progressive
equalization of military units of
the defensive type, and by equal
participation in the responsibility
and advantages of common ac-
tion stipulated in the League of
Nations covenant, all idea of re-
armament being put aside."

Chapter four which deals with
naval and colonial forces, proposes
the negotiation of a Mediterranean
pact between the interested na-
tions. The belief is advanced that
this would furnish guarantees en-
couraging the signatories to par-
ticipate in a system of mutual as-
sistance.

The relation existing between
types of armament would be
maintained, it is asserted.

France then recommends apply-
ing a coefficient of reduction to
naval tonnage "as they were de-
clared to exist in 1921."

Countries adhering to the pact of
mutual assistance would be bound
to furnish naval assistance to a
victim of aggression at the request
of the League of Nations.

The French Government today
informed the Associated Press that
France proposes proportional re-
duction of navies.

The document says France is un-
able for the present to fix its na-
val reduction, as this depends upon
international agreement, "but
French tonnage probably will be
around or under 400,000."

The document continues: "This
means France will accept a cut of
nearly 300,000 tons from her origi-
nal program."

The statement says the French
warship Dunkerque, is an answer
to the laying down in Germany of
the third "pocket battleship." The
statement concludes:

"Despite the uncertainty of the
international situation, France
would have preferred to renounce
the Dunkerque."

By the Associated Press.
MOSCOW, Nov. 14.—A cam-
paign against gold fillings in teeth
was launched last night by the
newspaper, Evening Moscow, which
exhorted the Soviet masses not to
"hide gold in your mouths, for by
so doing you reduce our ability to
import necessary machinery."

Bankers Indorse Gold Basis

European Conferences Say It Is Only
Way to Help Business.

BASEL, Switzerland, Nov. 14.—
Governors of Europe's central
banks who met yesterday at the
Bank of International Settlements
expressed the unanimous opinion
that the gold standard is the only
basis on which the world economic
situation can be bettered.

The bankers discussed problems
to come up at the world economic
conference which probably will be
held next year.

A story is related of a young man
who proffered an old Czarist gold
coin as a gift to his sweetheart,
with the explanation that she
could use it some day in her teeth.

Why U. S. Drops Opposition to
Munitions Control

By the Associated Press.
WASHINGTON, Nov. 14.—A be-
lief that legislation to control the
manufacture of munitions would
be held to be constitutional in the
United States has led the Ameri-
can Government to withdraw one
of its reasons for objection to
such a proposal in the Geneva Dis-
armament negotiations. Secretary
Stimson said today that precedents
of such control of narcotics led to
the belief that a charge that mu-
nitions control was unconstitutional
in America would not hold.

The American Government, Stimson
said, would continue, how-
ever, to stand by a reservation on
the plan as a matter of policy.

PARAGUAY PUSHES
ON IN CHACO; 500
KILLED IN BATTLE

"Macheteers of Death"
Said to Have Slain 300
Bolivians in Fighting
Over Week-End.

By the Associated Press.
ASUNCION, Paraguay, Nov. 14.—
The Paraguayan army was in the
midst of its long heralded drive in
the Chaco today after two battles
near Fort Munoz, in which 500 to
600 were reported slain. The Para-
guayans claimed the victory. They
said both battles were fought in
the vicinity of the Bolivian staff
headquarters at Fort Munoz.

The 500 were slain near Fort
Saavedra. Unofficial reports said
the Paraguayan "Macheteers of
Death" had annihilated a detach-
ment of 300 Bolivian troops and
captured many others near Qua-
trovientos. These new movements
toward Munoz followed the capture
of Fort Boqueron in the center of
the Chaco recently. Boqueron and
nearby forts are known as the
northern sector, and Munoz and
nearby defense works, the south-
ern sector.

The southern sector lies along
the Pilcomayo River that sepa-
rates the Chaco from Argentina.
The northern is midway between
the Pilcomayo and the Paraguay
River separating the Chaco from
Paraguay.

The Bolivian Fort Munoz in-
cludes an airport, a radio station
and ample well water. To the north
the Paraguayans have already se-
cured the only supply line to Munoz
from that direction. The Bolivian
road to Munoz along the Pilcomayo
has been inundated with the ad-
vent of the rainy season.

EX-PRESIDENT OF MEXICO DIES

Lagos Chazaro Served as Pro-
visional Head in 1915.

MEXICO CITY, Nov. 14.—Fran-
cisco Lagos Chazaro, former Pro-
visional President of Mexico, died
yesterday. He was 70 years old.

Lagos Chazaro was named Pro-
visional President by a convention
on June 10, 1915. He held the
Presidential post for about four
months. Just before his appoint-
ment President Wilson had in-
dicated that intervention in Mexico
might become necessary unless
warring revolutionary factions set-
tled their differences. The fight
was between anti-Carranza army
and that of Francisco Villa.

Death of Washington U. Professor
Was 85 Years Old.
Mrs. Elizabeth Wells Lippincott, mother of Dr. Isaac Lippincott, professor of economics at Washington University, died yesterday at her home, 1844 West Cabanne place, of infirmities of age after a long illness. Mrs. Lippincott, who was 85 years old, resided with her son. She was the widow of Daniel Barry Lippincott, general manager of the old M. K. Fairbanks Co. She is survived also by another son, Richard L. Lippincott, Cashier. Funeral services will be conducted privately tomorrow at the residence; burial will be in Bellefontaine Cemetery.

Funeral services will be conducted privately tomorrow at the residence; burial will be in Bellefontaine Cemetery.

Ingrown Nail Turns Right Out!

Pain Stops Instantly!

"Outgro" is a harmless antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.

A few drops of "Outgro" in the crevice of the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it cannot penetrate the flesh, and the nail turns naturally outward almost over night.

How Old?

He doesn't look a day over fifty. And feels like forty.

At the age of 62.

That's the happy state of health and pep a man enjoys when he gives his vital organs a little stimulant.

When your system is stagnant and you feel sluggish, headachy, half-alive—don't waste money on "tonics" or "regulators" or similar potent medicines. Stimulate the liver and bowels. Use a famous physician's prescription every drug store keeps. Just ask them for Dr. Caldwell's syrup pepsin.

This appetizing syrup is made from fresh laxative herbs, active senna, and pure pepsin. One dose will clear up almost any case of headache, biliousness, constipation.

But if you want to keep in fine shape, feel fit the year 'round, take a spoonful of Dr. Caldwell's syrup pepsin every few days. You'll eat better, sleep better and feel better in every way.

Give the children a little of this delicious syrup two or three times a week. A gentle, natural stimulant that makes them eat and keeps the bowels regular. And saves them from so many sick spells and colds.

Have a sound stomach, active liver and strong bowel muscles that cleanse the system and keeps it regular! Just keep a bottle of Dr. Caldwell's syrup pepsin on hand; take a stimulating spoonful every now and then. See if you don't feel new vigor in every way. Syrup pepsin isn't expensive.

MAN SERIOUSLY STABBED

AFTER ROW WITH BROTHER

Clarence Fellhauer, 24-year-old shoemaker, 2824 South Eighteenth street, was taken to City Hospital Saturday night suffering from serious stab wounds in the chest, which he said were inflicted after he had quarreled with his brother, Leo F. Fellhauer, at the latter's home, 2125 Lynch street.

He denied Leo stabbed him and said he was wounded by a man as he ran through the back yard after the quarrel. Police reported they found a knife and a blood-stained shirt in a closet at the Lynch street address.

Leo's wife, Mrs. Frieda Fellhauer, said the brothers had been drinking. She and her husband were arrested when police reported finding 192 bottles of beer in the house.

6 Girls Killed in Truck Upset.

By the Associated Press.

BOBOTA, Colombia, Nov. 14.—Six girl students at a convent were killed and four others were hurt seriously today when a motor truck in which they were returning from school overturned on a mountain road.

MOVEMENT TO EXPAND CITY TRADE TERRITORY

Chamber of Commerce Reorganizes and Increases Scope of Traffic Bureau.

As a means of combating restriction of the St. Louis trade territory, the Chamber of Commerce is reorganizing its Traffic Bureau, increasing its scope.

The new arrangement, under Carl Glessow, who came here recently from New Orleans as the chamber's traffic director, will become effective at noon. The bureau is concerned with freight rates to and from St. Louis for all forms of transportation and with matters affecting transportation in general, for the benefit of all shippers.

A Traffic Board of 35 members, drawn from railroad, waterway, trucking and bus interests, is the basis of the new organization. It will determine ordinarily questions of policy and action for the bureau. There will be a Shippers' Conference Committee, with membership open to all shippers, and their representatives in the St. Louis industrial district, acting in advisory capacity to the board and bureau. It will replace the Industrial Traffic Managers' Conference, which was open only to Chamber of Commerce members.

Within the shippers' conference an Executive Committee of nine will be set up, also 21 committees dealing specifically with certain commodities forming the backbone of St. Louis industry. The Traffic Bureau, in addition, will have the advice of separate railroad, but and truck and waterway committees, representing the respective interests.

The bureau plans to keep up its activities with the Interstate Commerce Commission and the State Public Service Commission, and to seek readjustment of St. Louis freight rates and watch transportation legislation. It will give general service to members on their special problems.

Chamber of Commerce executives assert that the reorganization will give St. Louis as good transportation representation as any in the country. Traffic problems here have assumed the greatest importance, they said, as "the process of squeezing in St. Louis' trade territory has been going on for some time." Although freight rates formerly reflected the advantages of this city's central location, various factors and rate changes have shrunk this trade area during the last 15 years, the chamber declared. The chamber now hopes to overcome these influences.

JUDGE HAID TO BECOME CLERK OF COURT WHEN TERM ENDS

Appointed by Two Colleagues on St. Louis Appeals Bench: New Duties Begin Jan. 1.

Presiding Judge George F. Haid of the St. Louis Court of Appeals, will become Clerk of the Court for a one-year unexpired term when his term on the bench ends Jan. 1. The appointment was made today by his colleagues, Judges William Dee Becker and Charles H. Daves, who feel it will be desirable to have an experienced official in the place. Judges Daves, Becker and Haid are Republicans.

Joseph Kane and E. J. McCullen, Democrats, were elected to the court to succeed Judges Haid and Daves on Jan. 1. The clerkship has not been filled since the death of Miss Hazel English, July 15. It pays \$3000 a year. Judge Haid, who is 65 years old and his brother of Probate Clerk Fred H. Haid was Deputy Clerk of Federal Court here, 1884-91, and Clerk of the United States Circuit Court of Appeals, 1891-1911. He became Associate City Counselor in 1921 and was City Counselor, 1922-24. In 1929 he was appointed to the Appellate Court. He was not a candidate in the recent election.

Judge Becker, who has been on the Court of Appeals for 14 years but never has been Presiding Judge, will assume that rank Jan. 1. The three Courts of Appeals in Missouri are said to be the only tribunals in the country whose Chief Justice is selected, under the law, by seniority of legal license rather than seniority on the bench.

TWO IRISH STUDENTS ARRIVE TO DEBATE AT WASHINGTON U.

Capitalism and Socialism to Be Discussed in Contest Tomorrow Night.

Two Irish debaters from Trinity College, Dublin, will meet two Washington University students in a debate tomorrow night which "contemplates a discussion as to whether capitalism has so outlived its usefulness that it should be supplanted by a socialist organization."

The four debaters spoke yesterday at radio station KMOX. The visitors, J. J. Auchmuty and Garrett E. Gill, told of their impressions in America and of President de Valera's plan for Ireland. Harry Jones and Harry Chapman of Washington spoke on "Irishmen in America" and the "Influence of Socialism."

Gill said that he had come to the conclusion that the Middle West "has been traduced and libeled by such writers as Sinclair Lewis and H. L. Mencken." What he found to complain of, however, was the "sameness of American towns and the universal lack of adequate book shops."

England to Pass Up World's Fair. LONDON, Nov. 14.—Great Britain has made no arrangements for official participation in the Chicago Exposition next year, the House of Commons was informed today. The secretary of the Overseas Trade Department said this omission was due to the high cost involved and the present necessity for rigid economy in public expenditure.

REQUEST FOR GARMENT SEWERS

The St. Louis Chapter of the American Red Cross appealed today for volunteers to sew garments for the needy.

The sewing room, at 1706 Olive street, is open each day from 9 a. m. to 1 p. m., and any woman who desires to sew will be welcomed.

Earth Shocks Recorded Here.

Earth tremors originating about 5200 miles northwest of St. Louis were recorded Saturday night and yesterday morning on the seismograph at St. Louis University. The first shock was at 10:59 a. m. The Rev. James B. Macelwane, S. J., seismologist, said the tremor prob-

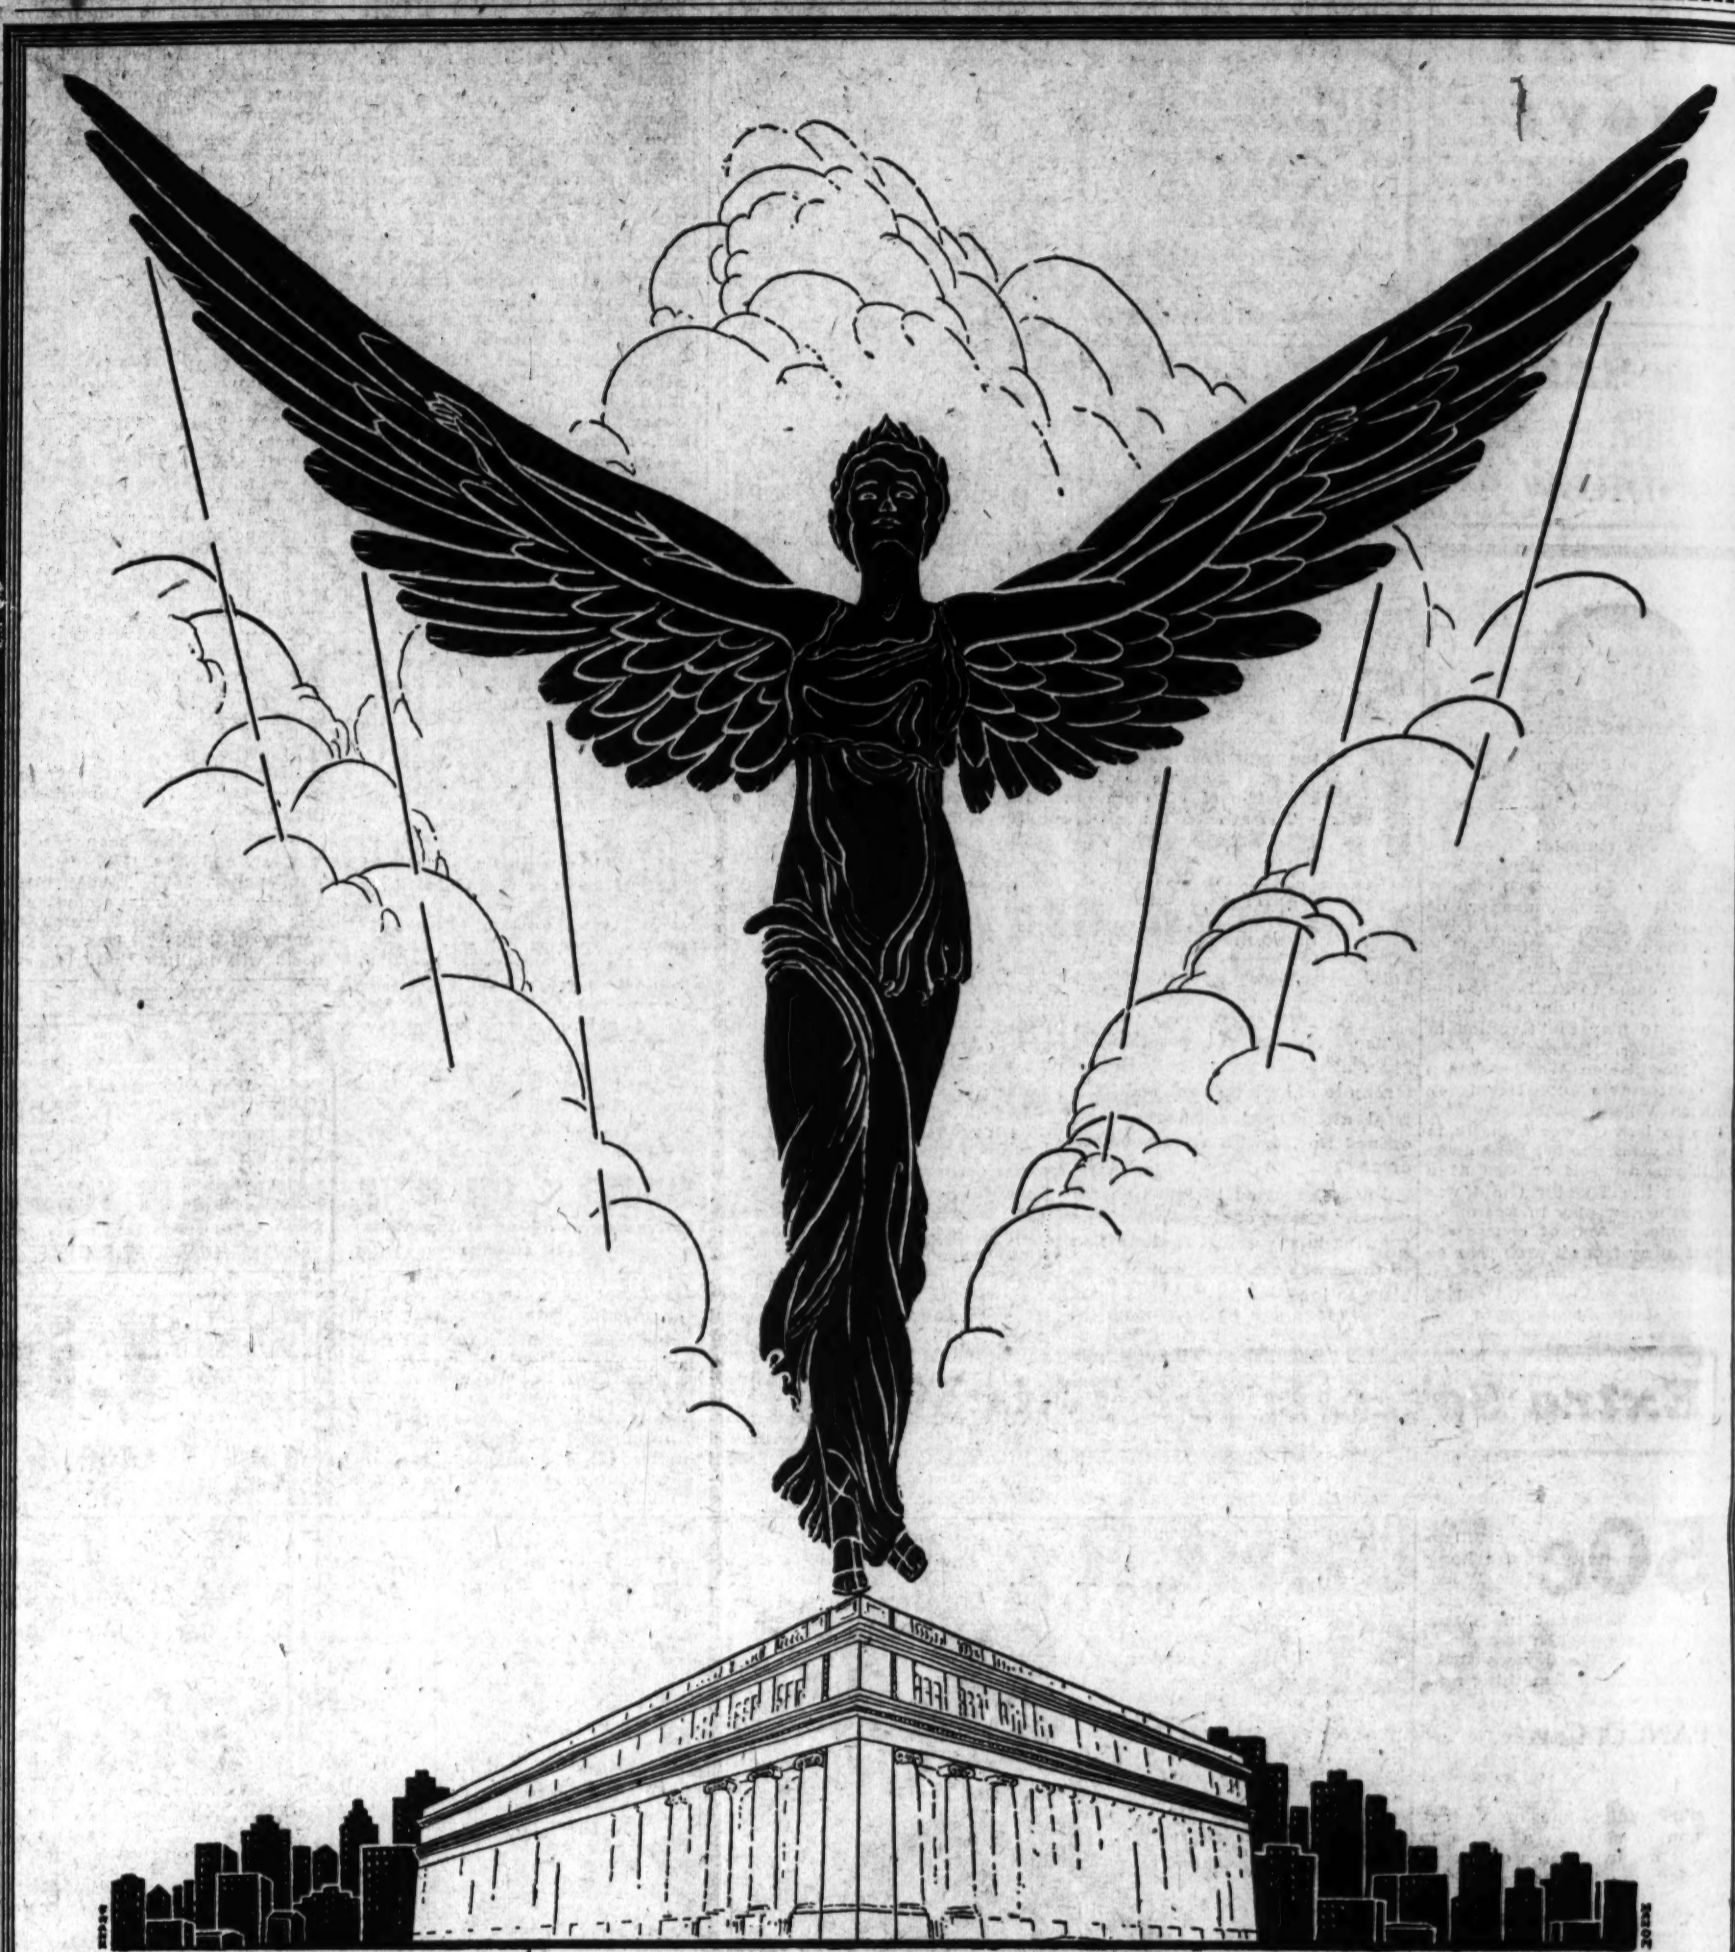

ably was far beneath the earth's surface, near the coast of Japan, and produced only slight vibrations at the surface.

MR. AND MRS. HAL SIMS WIN TWO MORE BRIDGE TROPHIES

By the Associated Press.
 NEW YORK, Nov. 14.—Mr. and Mrs. F. Hal Sims made room today in their home at Deal, N. J., for two more bridge trophies. Sims won the individual trophy in the New York State contract championships held under auspices of the American Bridge League, while Mrs. Sims, with Waldemar von Zedtwitz, won the mixed pair event. The competitions were concluded over the week-end at the Ritz in New York.

In the individual event each of the 56 qualifiers had to play with every other qualifier as partner. Twenty pairs competed in the mixed event. Typical of Sims' play was a hand in which he took all the tricks at no-trump after passing originally with cards on which some players would have opened the auction. It was a squeeze play by which he nullified an adversary's ace. A little slam was bid. The grand slam was no biddable because of the lack of one ace.

W. H. Dollar, Avoiding Rain, Steps Into Baltimore Hotel He Once Defrauded, and Is Caught.

By the Associated Press.
 BALTIMORE, Nov. 14.—Identifying himself to police as "the most widely-sought bad check artist in the country," Wolsey Hadden Dollar, 61 years old, was held here today as authorities traced his record for the last five years. Many cities in United States and Canada have been hunting for Dollar to answer various charges of passing worthless checks, according to Sgt. Matthew Dunn of the Baltimore Detective Bureau. The rain led to Dollar's arrest last Wednesday. He stepped into a hotel lobby to avoid the rain and a clerk, recognizing Dollar as the man who passed a worthless check for 117 last May, notified police. Three charges of defrauding and passing worthless checks were lodged against him.

Sgt. Dunn communicated with police in other cities and received replies that Dollar is wanted in New York, Washington, Philadelphia, Birmingham, Knoxville, Louisville, Cleveland, Richmond, Va.; Worcester, Mass.; Boston, Providence, Hartford, Conn.; Harrisburg, Pa.; Syracuse, N. Y.; Buffalo, N. Y.; Columbus, O.; Fond Du Lac, Wis., and in Montreal, Toronto and Hamilton, Ont., in Canada. Dollar was said by police to have represented himself as an agent of a Philadelphia publishing company, the Philadelphia office of a sewing machine company and a mail order house while tendering fraudulent checks drawn on these concerns. Police found 250 blank checks, bearing the name of the publishing company, and a stamping apparatus in his room.

10 MURT IN HEAD-ON CRASH OF AUTOS ON HIGHWAY 40

Two St. Louis Women and Man Seriously Injured in Accident Near Foristell, Mo.
 Ten persons were injured, three seriously, in a head-on collision of two automobiles on Highway 40 near Foristell, Mo., shortly before noon yesterday. Mrs. Mamie Masaro, 4477 St. Louis avenue, suffered a fractured shoulder and injury of the hips. Mrs. Albert Blauert, 3800 W. St. Louis avenue, suffered a fractured hip. They are in St. Joseph's Hospital at St. Charles. Joseph Lampas, 4477 St. Louis avenue, is in St. John's Hospital with internal injuries. Mrs. Blauert's children, Alfred, Ethel and Arthur, were cut and bruised.

Lampas, accompanied by the women and children, was driving west and collided with an east-bound automobile occupied by four men from Charleston, Mo., who were on their way home from the homecoming celebration at the University of Missouri. The occupants of the second machine, all of whom were cut and bruised, were: Lenzie Brown, R. J. Swank, Sheldon Gentry and J. H. Marshall. They told officers that the other machine turned out of a line of traffic into the path of their car.

Family Hosted by Fire.
 The family of Herman Kaner, 5723A Easton avenue, were routed from their home last night when fire was discovered in a wallpaper store on the first floor. Damage was estimated at \$2500. The cause of the fire was not learned.

MRS. AL JOLSON IN THE MOVIES

Ruby Keeler, who danced her way to fame on the stage and then married Al Jolson, now has entered the movies. She is under contract with a Hollywood studio and has been cast for her first picture.

DAD IS PRESIDENT-ELECT, BUT JOHN IS ONLY WATER BOY

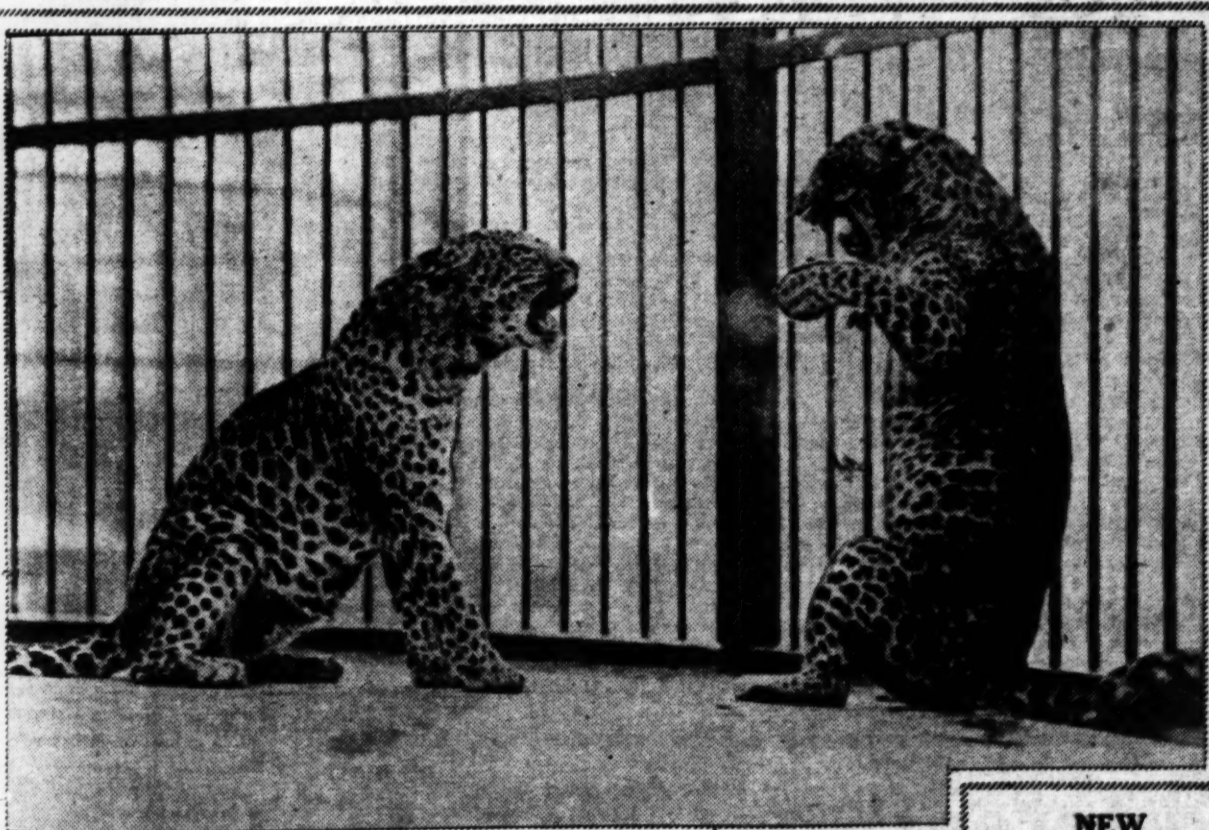

It's all work and no glory for young John Roosevelt of Groton School, Groton, Mass. If the players want water, he gets it—and no comebacks about his dad being President-elect. An older brother, Franklin D. Roosevelt Jr., shown on left, is a tackle on the team.

THE ALTON GIANT GETS NEW SHOES

Robert Wadlow, 14-year-old Alton High School boy, tries on a new pair of shoes made to order for him by the Peters Shoe Co. The shoes are size 34 and weigh 3 1/2 pounds each. One of them almost covers the chair his foot is resting on. Robert is now 7 feet 3 inches tall and weighs 300 pounds. In the picture at left Robert is comparing the new shoes with those of his sister Helen. —Photos by Post-Dispatch staff photographer.

A FAMILY QUARREL

Jaguars in London Zoo square off to settle a little argument.

NEW CORNHUSKING CHAMPION

Above—Carl Sellers of Illinois, a "south-paw," who won the national corn-husking championship contest at Galva, Ill. He husked 36,914 bushels of corn in 55 minutes. At left—The crowd at the contest sees a farm machinery parade.

A NEW MOVIE STAR

Katherine Hepburn, whose first picture is heralded as a big success.

DUCHESS, 85, LEADS HUNT

Originals

LISTEN, WORLD!

by Elsie Robinson

Are You in Love With a Dream?

HE was in love with a dream. To begin with, he wasn't a dream at all, but a perfectly healthy and substantial young army officer named Capt. Armstrong. He had gone to New York in the summer of 1917, and was waiting there for a few weeks while his regiment prepared to go overseas. During those unreal, romantic days the beautiful young Baroness de Hoven met him, and they fell desperately in love.

So desperately that she felt she would die when his ship steamed away, his beloved face fading in the mist. But she didn't die. Instead, she went through the war unscathed. She wrote him daily.

He answered her almost as often. Then he came back.

Did he? The army records said he did. The Captain himself swore he did. But the Baroness de Hoven cried that he was an impostor.

It's an amazing story, Capt. John H. Ayers, head of the Missing Persons Bureau of the New York Police Department, tells about it in his new book, "Missing Men."

Many a strange tale has come to Capt. Ayers' wise ears, but none more fantastic than the one he heard when the beautiful Baroness came begging him to find the man she loved. For here, on one side, was a gentleman protesting that he was the lover she had sent away; and on the other hand, there was the lady herself vowing that he wasn't, and couldn't be.

"But how do you know he isn't?" said Capt. Ayers.

"The evidence of my own eyes," said the lady, scornfully. "My lover was a modern Adonis, six feet tall, perfectly proportioned. His hair was dark, his eyes dark and lustrous. But this man is only five feet 10 in height, with light, sandy hair, a close clipped mustache, a crooked face and hands—not the slightest resemblance to my boy."

It sounded convincing. So convincing in fact that the lovely lady persuaded not only the New York Police Department but the United States Government itself to labor for months in a search for her lost lover. And then it all came out.

Her lover had never been lost. He was, in truth, the freckled, sandy young man whom the Baroness had sobbingly sent to war, but whom she indignantly repudiated when he returned.

Because, in the meantime, she had fallen in love with a dream. Originally she gave her heart to a real young man. But, as he passed from her sight, she began to transform his rather ordinary features into those of an imaginary hero who matched her romantic ideal. Little by little she changed him over; made him a bit taller, a bit darker; erased those freckles; forgot the stubby mustache.

Gradually she became a little confused. Just how did he look, anyway? Then, presently, the thing which had begun as a romantic fancy became a burning reality. And when the real man came back, she called him an impostor because he did not match her dream image.

A strange and a pitiful story, ending in an insane asylum. But what has it to do with you and me? Plenty!

For we, too, fall in love with dreams, and reject reality! We, too, try to fit people and conditions into our pet pictures. And, when they refuse to fit, we feel cheated, and abused, and reject them, in our anger.

Stop and think of your own attitude toward the people you profess to love; toward the world in which you live. Do you accept people as they are? Or do you get mad if they fail to live up to your ideal fancy?

Will you accept the world as it is? Or do you blind yourself to facts and interpret conditions according to your own prejudices and preferences?

Think it over. Maybe you'll be surprised.

BUILDS STRENGTH TO FIGHT COLDS

Father John's Medicine

SAFE FOR ALL THE FAMILY

Used in Over 100 Institutions and Hospitals

AMONG the wonders of American industry within the past few years, the skill of furniture makers in reproducing beautiful antique models within the price range of the majority of American homes is of particular importance to the American woman.

There is an eighteenth century dining room group, for example, which is made for the small house or apartment, yet it includes all the charm and dignity of the original, designed for spacious rooms of older and more luxurious days. The dining table is of the double pedestal type and the side and arm chairs are in the best style of Duncan Phyfe.

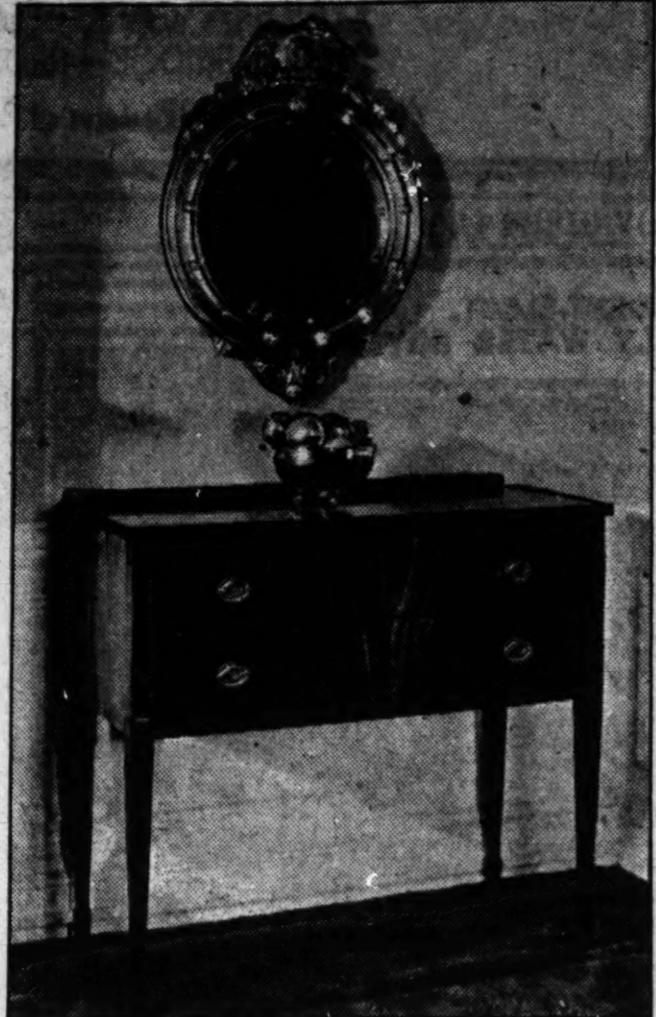

The dining room walls must be regarded as a frame for the furniture. In one good layout, a soft green was used and the woodwork is painted white. There also was a broad loom rug, a rich blend of brown and purple, with brown dominating, which harmonized delightfully with the elegant upholstery of the graceful chairs.

Over the mahogany server, which is shown here, hangs a bull's-eye mirror, copied exactly from one made in 1780.

The singular beauty of this combination should not restrict it to museums and dining rooms of women's notably artistic. This group was made for typically American homes where good taste and economy prevail.

In practically every town and city of the country, at least one group similar to this in excellent workmanship and low price is on display, or else your local merchant has photographs and prices, and can order what you select.

So don't deny yourself the pleasure of good furniture even if you do have to live away from great cities. Modern methods of distribution have made this unnecessary, and modern taste and skill of manufacturers have made beautiful furniture for every room in the house an accomplishment within the reach of all.

chant has photographs and prices, and can order what you select. So don't deny yourself the pleasure of good furniture even if you do have to live away from great cities. Modern methods of distribution have made this unnecessary, and modern taste and skill of manufacturers have made beautiful furniture for every room in the house an accomplishment within the reach of all.

PARENTS

Confidential Talks With Mothers and Fathers.

by Alice Judson Peale

In Mother's Image.

ALTHOUGH Gerda obviously was a bright child it was impossible to teach her to perform any useful tasks. She refused to dress herself, to help her mother in such ways as would have been natural, and what was more, she refused to learn to read.

Instead she flitted about in costumes of her own improvising in which she imagined herself a fairy princess and calmly announced when remonstrated with, "I'm not supposed to learn anything. I don't have to."

To her teacher she said, "I don't have to do anything you tell me." One's natural inference would be that Gerda was the spoiled child of millionaire parents. Nothing of the sort. Her mother, a father were intelligent, hard working professional people who were appalled at their small daughter's attitude.

The answer to the riddle lay not in the influence to which Gerda consciously was subjected, but in the unconscious influence in her own childhood her mother had desired passionately to be an exotic creature loved and admired by everyone because of her beauty.

Consciously she wanted her child to be a wholesome, normal little girl, with all the capabilities of her age. Unconsciously she had wanted her to embody that part of herself which she had in her own life never been able to realize.

By what process had this unconscious wish of the mother made itself actual in the child? One can only say that there is in the mind a subtlety of intuition which causes them to know instantly without knowing that they know, just how and when they are doing what pleases their parents.

Teaching Children To Use Right Words

WHEN Harry, aged four, started to school, his teachers were amazed over his ability to use the correct word for something out of the ordinary objects and actions. They asked his parents how this came about.

"When he asks what an unfamiliar object is called," his mother said, "we tell him exactly. He loves to watch his father work on the family auto. When he says, 'what's that,' pointing to the clutch, the accelerator, the fan, or any other part, his father doesn't say, 'Oh, just something that makes the car go.' He calls the part by its exact name."

A child being surveyed at work for the first time might just as well be told that those men are men, "doing something." Both the word and the men are new. And a child's mind can accept the strange idea and the strange word with equal facility.

Children's minds are eager for new ideas and new words to use. So play fair with your child and help him build up an active and correct list of so-called "difficult" words. To him, they will seem just like any other words.

EVERYDAY RELIGION

By THE REV. JOSEPH FORT NEWTON

"SO NEAR, YET SO FAR"

WHEN Mark Twain lived in Nevada he started out one day to walk to a mountain not far away. After walking half a day the mountain seemed as far away as ever, and he turned back. At dinner that night, when someone asked him to pass the salt, he said: "My friend, it looks easy, but distances are deceptive over here; that salt cellar may be five miles away." Yes, distances are deceptive, and they are not always a matter of space.

Of King James of England it was said that "he never said a foolish thing, and never did a wise one." When a man twitted him about the size of London, his capital, as compared with the tiny towns of Scotland, where he once reigned, his mother-wit did not fail him. He turned the tables by telling of a town in Scotland, the town of Nairn, so big that the people at one end did not understand the language of the people at the other end.

No doubt he left his joke unexplained; but the fact was that in the town of Nairn half the folk were Gaelic-speaking Highlanders, and the other half Scots-speaking fishermen. It was a distance of language, and in the town of Nairn was bigger than London; its "distance" could not be bridged. Not mileage, but misunderstanding makes the real distance in life, separating people, and making suspicious and jealousies which keep them apart.

Not size, not ranges of mountains, not wide rivers, not even "the unplumbed, salt, estranging sea," but the isolation of ignorance, of animosity, of prejudice set men far from each other. Our modern inventions have made the earth terribly small, so that a whisper can be flashed round it in a few seconds; but men are still far apart. Men may be near enough in space—drawn together, jammed together—yet as distant from each other as the poles in language, in thought, in culture.

In the parable of the Prodigal Son, the boy who went into a far country was nearer to his father than the boy who stayed at home—the thrifty, respectable boy whose selfishness made him as hard as nails, and so cold that one could skate all around him. Often a man and wife live in the same house for years, yet they are world-far apart in sympathy and understanding. No distance may not be physical at all, but spiritual—so near in body yet so far apart in spirit. Here lies the real loneliness of life, which may be as lonely as death.

What we need is more light, more love, more understanding, and a finer skill of engineering to bridge the gaps and chasms which yawn between races, colors, creeds, classes and sects, that those far off may be brought near in a new sympathy and fellowship.

DR. JOSEPH F. NEWTON.

BEHIND THE SCREENS

By ROBBIN COONS

HOLLYWOOD, Nov. 9. It is amazing how seldom, in all Hollywood's constant chatter about pictures and picture people, the subject of the cinema as an art form, and a medium for creative effort is discussed.

The observation is not original with me, but it came from Dudley Murphy—and perhaps it explains why the young director has come in for considerable good-natured ribbing in Hollywood.

It was this not always gentle Dudley Murphy, battling during the making of his "Sport Page" that aroused my curiosity, and I sought him out to learn the other side.

I found Murphy a very tall, rather awkward blond fellow who to my surprise revealed a genuine interest in the motion picture as such and not so much as a means of getting rich quickly.

I should not have been surprised at this had I known that his "Ball Mechanism," an experimental one-reeler made when he first became interested in films, is still highly regarded as pure cinema art, nor had I known that one of his major ambitions is to direct his own adaptation of "Emperor Jones," approved already by Eugene O'Neill, for the screen.

In the current rise of independent and the popularity of unit production as opposed to large studio methods, Murphy has the opportunity he has awaited while "studying" the screen in Hollywood and Europe since he came out of the flying service in the war.

He has a plan for a small organization of screen personalities which would operate on a profit-sharing basis like the Theater Guild, and attempt to make, similarly worthwhile productions. The word "organization" is inept—implying formality. His idea is to have artists working in films in which they are interested rather than in pictures they are to do regardless of their wishes.

The plan is out of the nebulous stage and will be ready, he says, for more definite announcement shortly. With those ideas, and the thought of making pictures for the sheer fun of making pictures, films that are artistic, Dudley probably won't be happy with the run-of-the-mill stuff studios assign young directors to do. I can't help wondering how the fellow who dubbed his latest picture "The Green Murphy Case" will feel if Dudley, given free rein, puts these ideas of his into practice and does crash through.

He outlined for me one of the stories he has selected for production and while it isn't a picture yet—it has more drama than a hundred of Hollywood's customary cream-puffs of entertainment.

Apple Kuchen. Place in the bottom of a greased baking dish a thin layer of rich baking powder dough, almost as rich as pastry. Lightly press into the dough slabs of peeled apples and pour over the top melted butter to moisten. Sprinkle with one tablespoon currants, one tablespoon chopped seeded raisins, ground cinnamon, grated nutmeg and lightly dust with granulated sugar. Bake in a fairly hot oven until the apples are tender.

If we aren't careful about our fashion trends it won't be long before we are going about swinging our handbags by chains in the nonchalant manner of inflation days. Some of the newest bags arriving for the retail trade have these metal chains. One in particular is of suede with a unique slide fastener so that both front and back drop down, and with a handle of woven chains. Another forerunner of this fashion for handbags handles of felt is in pouch style and has a stiff handle of metal.

Birds and beasts keep watch over a book-lover's choicest volumes. A collection of unusually attractive book-ends observed in a window display include pelicans, peacocks, horses, hogs and even fish. The fish are slender ones curled in modernistic curves and are made of wrought iron. All of these book-ends are mannish-looking, so a hunter or a fisherman will welcome them in his library.

Can you think of anything to wear more luxurious than a pair of velvet lounging sandals? Some say that they are liked so well a few wearers even have been seen dancing in them. They are in the jewelry stores so popular in evening gowns, so who can be blamed? Metal brocade mules seen in a shoe shop display also look like they might venture outside the boudoir. These have back straps, as do the velvet ones.

Anyone with a weakness for dice games will have a hard time keeping his mind on a serious rubber of contract with the new diced playing cards a St. Louis store displays. These cards are backed quite recklessly. They are made up of squares all dotted with spots and if you look closely you can see some lucky combinations.

When the "Tells-You-How" type of beverage mixer first appeared here a few months ago it pretended to be very exclusive. But now that so many hosts have found that it pays to know how (as well as what) they are mixing, these likable containers are in almost all the stores in town. Recipes for some favorite mixtures are listed in a row. You simply twirl the container to the listing you prefer. A tray that is even more obliging in its number of directions also promises to be a good winter entertainer.

Today's Room For Rent lists in the Post-Dispatch are being read in far more St. Louis homes than can be reached through any other St. Louis newspaper. These lists rent rooms quickly.

SEEN in the STORES

Latest Things for Milady's Wardrobe
As Shown in Our Own Shops

By SYLVIA

HERE'S a tip for men who are thinking about feminine gifts in the form of toilettries. Color schemes in powder boxes, perfume containers and the like must carry out a definite boudoir scheme. There are different shades of boxes to match almost any boudoir color. Even soap comes wrapped in packages identical with other cosmetics. Odors likewise are the same for every article, for no fastidious woman, it seems, wants to use hyacinth scented soap when lilacs of the valley suit her particular style of beauty.

Now that rodeo blouses are galloping about and have lassoed fashion honors, a rodeo skirt also has entered the style arena. This skirt has a wide belt that looks like the one cowboys wear. There are big holster pockets to give the style an even more daring appearance. A costume like this will make a good-looking rancher out of any city tenderfoot, especially one who affects the swagger type of sports things.

Far continues to create a furor in one way or another. Informal evening dresses with ruffles for sleeves are demure-looking enough for any modern girl pretending to be Mid-Victorian. A long-shouldered dress of black velvet seen in a shop

Little girls and their mothers, too, are finding the knitted scarf sets too fascinating to leave alone. All are youthful styles, but there is such a variety in colors and in patterns that there is no danger of a child mistaking her set for her mother's. Some of them consist only of scarf and beret, but many include a handbag. Plaid and striped knitted wool are favorites thus far this season, while the corduroy sets are very new and chic.

A chop plate that costs little more than the six or eight chops which will fill it is of crystal glass. This plate may also serve for other uses, such as a sandwich or fresh fruit platter. With white china increasing in style interest the vogue for clear crystal stemware becomes more empty. And a chop plate such as the one mentioned fits into this scheme of table decoration.

When the "Tells-You-How" type of beverage mixer first appeared here a few months ago it pretended to be very exclusive. But now that so many hosts have found that it pays to know how (as well as what) they are mixing, these likable containers are in almost all the stores in town. GOOD TASTE

By EMILY POST

Lunch and Tea.

Dear Mrs. Post:

I served immediately after fruit a salad course and before dessert or last of all after dessert?

Answer: Last of all, except coffee. Unless you mean fruit cocktail or melon or grapefruit, which are served first of all.

My dear Mrs. Post: Please explain what you mean by "party sandwiches"—the kind you say should be served at afternoon tea.

Answer: Merely very thin and small and neatly made ones. Very thin bread spread with pate or butter and rolled into a little bolster, or regular sandwiches with a quarter inch thick cut in triangles or with a cookie cutter. Pate de foie gras is a type.

Emily Post: I am having a party and am using a smooth paste will do for filling. If salad filling is used, lettuce must first be shredded, and tomato cut silver thin. Caviar sandwiches be served in a covered china dish, the plate garnished with new-moon slices of lemon.

My dear Mrs. Post: What is the correct way to serve anything hot at afternoon tea, such as muffins, crumpets, toast, tea biscuits and so on? Should they be served in a covered china dish to match the tea service, or in a silver dish, or how? And if they require buttering, should this be done before placing them in the dish, or after? And if they require butter and knives and let the guests butter them individually?

Answer: The ideal dish is a silver "muffin dish" with a hot water compartment under it and a domed shaped cover over it. Otherwise use a covered dish, either of silver or of china, whichever you happen to have. Hot bread foods should be buttered in the kitchen. Serve jam (if you serve it at all) in a separate dish with little individual butter knives as well as tea plates.

My dear Mrs. Post:

What beverages are properly served at a luncheon? Must they be served hot, or may they be cold, too?

Answer: Formally, they should always be cold: fruit cup, ginger ale, cider. In the summer, iced coffee or iced tea.

(Copyright, 1932.)

Many people blame common winter illness on wet feet, drafts, raw winds, overheated rooms.

But what they lack is good resistance!

We're all exposed alike to the rigors of winter. Why are some people so much more susceptible than others to certain ills?

Just being out in bad weather, or staying in a stuffy room—conditions that do not bother most of us—prove too much for them.

What these people need is extra resistance to fortify them in winter. They should lose no time building themselves up!

It's easily done now, with the help of a new concentrate of the vitamins in cod-liver oil—Squibb Adex Tablets-10D.

Squibb Adex Tablets are an especially rich source of the important factor which builds good general resistance—Vitamin A! They also provide an abundance of the sunshine Vitamin D.

Each Adex tablet supplies as much Vitamin A as 4 D as one-half teaspoonful of Squibb Cod-Liver Oil with Viosterol-10D.

No wonder they offer such protection in winter! And they are chocolate coated—pleasant to take. Begin now. Take them every day. Ask your druggist.

The vitamins of cod-liver oil in a pleasant new form.

My dear Mrs. Carr: In answer to Anthony's chivalrous admiration for "Old Fashioned," I write experience. I am in her class requirements for "Lacy." Per are the exact ones for which parents reared, educated, trained me; private schooling, social music and of course always above smoking, drinking, cheap kissing and petting—don't wear six petticoats. No do you wear red flannels. But as for reading the average, not three, as I can't afford the haven't misread a political (both sides, mind you.) Neither do I monopolize the conversation, unless the man I'm talking to is "Yes, No, Huh!" sort. Also I try not to be of the "other fellow." Hal Sims on Bridge Ideas for the Day

IF YOU ASK MY OPINION

By MARTHA CARR

Dear Mrs. Carr: I want to give a Thanksgiving party for 10 or 12 people something different. Can you suggest? MADEIRA

The following plans may help you out:

A Thanksgiving Party. When the guests arrive, have them place their cards, leaf pumpkin shaped, on the back which you have written. "Thank you for the party." The lucky number is 6, or 8, or 10, as the case might be. Everyone will be mystified, but they will not get out why until they go into the dining room.

A few of your guests (the number depending on the number of guests) are given candy turkeys wrapped in tissue paper. They are not to let anyone know they have them. Tell the guests that each other guests hold magnificent prizes and that the ninth person shake hands with each of the persons is to get a prize, and the shoes who hold the prizes are count the people shaking hands with them and when the ninth person shakes hands with them just make a mental note of it. A three minutes of handshaking prizeholders are asked to announce their "ninth handshakers." gorgeous prizes are then awarded to them.

Partners in Pairs—The girls slip a slip of paper out of one box, the boys take one out of another box. On these different slips have been written the names of various articles of food, such as apples, cranberries, etc. After everyone has a slip Mr. Bacon looks for Mr. Egg and Mr. Potato looks for Mr. Gravy.

When they all think they have found their right partners, the hostess reads the correct list. Steak may despair when he finds that instead of Miss Gravy a partner he should have Miss Potatoes.

Sparring Cranberries—Two couples are seated at each bridge table for this game, each couple being to appear more cranberries in their point than the other couple.

Table Decorations—Cover entire surface of the table with autumn leaves. In the center place a pumpkin and a wheel. Cut little holes in sides of the hollowed out pumpkin and insert yellow tissue paper, yellow ribbons, each bearing small yellow tag with a number and, of course, these correspond with the lucky numbers on the place cards. At each place put a tiny pumpkin filled with candies and around the pumpkin pumpkin pile nuts of all descriptions.

Ask everyone to choose a bit of the magic pumpkin, pull the ribbon. Of course everyone will choose the number on his place card, and will draw a little roll of yellow tissue paper on which has been written a prize—something for which that person will be thankful next Thanksgiving.

Menu—Chicken salad with a cold of cranberry. Toasted English muffins or rolls; or turkey sandwiches, almond ice cream, cake or coffee, nuts and mints.

Dear Mrs. Carr: I am interested in a letter which appeared in your column. I am an Auxiliary Member of the Spanish War Veterans, the name of our president, I like to extend this Auxiliary a cordial welcome. She had been here long, she said, meetings are held at the Sher Park Community Center. Is the old Christian Brothers' large building. Our men's G. M. on the same evening at same place, so she knows a W. V. Comrade, I am sure will McKinley Camp, No. 29, will come him most cordially. L. Rose, Secretary. Tel. 1243R.

My dear Mrs. Carr: In answer to Anthony's chivalrous admiration for "Old Fashioned," I write experience. I am in her class requirements for "Lacy." Dear Mrs. Carr:
I WANT to give a Thanksgiving party for 10 or 12 people—something different. Can you suggest?
MADELAINE.

The following plans may help you out:
A Thanksgiving Party.

When the guests arrive, hand them their place cards, leaf of pumpkin shaped, on the back of which you have written, "Your lucky number is 6, or 8" as the case may be. Everyone will be puzzled, but they will not find out why until they go into the dining room.

A few of your guests (the number depending on the number of guests) are given candy turkeys wrapped in tissue paper. They are not to let anyone know they have them. Tell the guests that certain other guests hold magnificent prizes and that the ninth person to shake hands with each of these persons is to get a prize, and that those who hold the prizes are to count the people shaking hands with them and when the ninth person shakes hands with them just to make a mental note of it. After three minutes of handshaking the prizeholders are asked to announce their "ninth handshakers." The gorgeous prizes are then awarded to them.

Partners in Pairs—The girls take a slip of paper out of one box, and the boys take one out of another box. On these different slips have been written the names of various articles of food which are usually served together. After everyone has a slip Mr. Bacon looks for Miss Egg and Mr. Potato looks for Miss Gravy.

When they all think they have found their right partners the hostess reads the correct list. Mr. Steak may despair when he finds that instead of Miss Gravy as a partner he should have Miss Fried Onions.

Spinning Cranberries—Two couples are seated at each bridge table. For this game, each couple tries to spin more cranberries with their joint hands than the other couple.

Table Decorations—Cover the entire surface of the table cloth with autumn leaves. In the center place a large pumpkin, and out from the center place corn stalks, about two feet long, like spokes of a wheel. Cut little holes in the sides of the hollowed out pumpkin with an apple corer, and hang yellow ribbons, each bearing a small yellow tag with a number, from the holes. Scatter these with the lucky numbers on the place cards. At each plate put a tiny pumpkin filled with little pumpkin pie nuts of all descriptions.

Ask everyone to choose a number of the magic pumpkin, and pull the ribbon. Of course everyone will choose the number on his or her place card, and will draw out a little roll of yellow tissue paper on which has been written a prophecy—something for which that person will be thankful next Thanksgiving.

Menu—Chicken salad served with mold of cranberry sauce. Toasted English muffins or hot rolls or turkey sandwiches, burnt almond ice cream, cake or cookies, coffee, nuts and mints.

Dear Mrs. Carr:
I AM interested in a letter which appeared in your column, written by an "Auxiliary Member of the Spanish War Veterans." In the name of our president, I would like to extend this Auxiliary Sister a cordial welcome. She had not been here long, she said. Our meetings are held at the Sherman Park Community Center. This is the old Christian Brothers College building. Our men's meetings on the same evening at the same place, so she knows a U. S. W. V. Comrade. A New Angle on Hats
How to Wear Your Chapeau

It's the TILT That COUNTS With Winter HATS

Sketches Made From Models in the St. Louis Stores

By SYLVIA STILES

It has been wisely said that nothing gives a woman a new lease on life like the purchase of a hat. No matter how downhearted she may be, if she can ally forth to her favorite milliner with the price of a hat in her pocketbook, the world immediately looks rosy.

But it also has been said (wisely but sadly) that there is no item of women's dress which more criticizes women's dress than the purchase of a hat. No matter how downhearted she may be, if she can ally forth to her favorite milliner with the price of a hat in her pocketbook, the world immediately looks rosy.

These hats of the "Gay Nineties" which swoop down over the forehead and expose the back of the head to chill November breezes are adorable, so the women think. But men say, "They are terrible."

You'd be surprised if I told you how many hats have come back to millinery shops these past few months with a chagrined woman explaining:

"I'm sorry but my husband friends, of the same type, find them as scarce as hen's teeth. I'll admit I have dated a good deal and I don't go out with everything looking male. But you and your sort, why don't you quit dating the other type? Every young man expresses views like yours, but dates the opposite—and you know it! Huhum!"

Well, until I cease to be an "unclaimed treasure," I'll spend my time as I please. I find satisfaction in the general expression of the boys who want her to "sit and knit."

Dear Mrs. Carr:
I AM 15 years old and I have come to a critical decision which I must make now. I met a boy 22 years old, about a month ago. I really like him and I am sure he cares for me. He takes me to the movies, supper, dances, and in other words treats me splendidly. But my parents object to him because of his age, in comparison to mine. I do not care so much about my parents' frame of mind, because they are not the ones who are keeping company with him, but I must know what to do. He has asked me to marry him many times, and has a fine office position, with chance for advancement and he is good looking.

Is it possible to marry one so much older than I am and be happy? If I do marry him I will have to wait till I am 18, will I not? This is a serious condition and I am desperate, as well as I am positive of my love. I am very mature for my age and everyone takes me to be 18 or 19 even though I weigh only 85 pounds.

Also I would like to know if my parents can do anything if I marry

doesn't like it.

Which is enough to justify a discouraged milliner who knows how to make a long nose look short or a broad face look long also is responsible for the approval in a man's eyes when he critically surveys a woman's hat. The majority of hats sold above the so-called "popular prices," and many which fall within that range, are fitted expertly to the head. Every milliner shop or department has efficient designers who know how to give a yank where it is needed, to take out fullness where it isn't needed, and do many other little things in the way of suiting a hat to a face as well as to a head.

All of the hats this season are (or should be) worn far forward so that they give the impression of a high back and a downward front sweep. A year or so ago hats were worn slouched over the right ear, but now they are worn slouched over the right eye. Various types of dips are seen by way of making one hat look different from another.

With the advance of the winter season and the increased attention to heavy furs around the neck, fewer brimmed types are seen in comparison to the number of toques and berets. Some milliners are so clever, however, that their

brims evade collars quite gracefully. But with the exception of sailor types, few hats with entire brims are seen. The hat which looks like a beret from our side and like a sailor from the other is a style of increasing popularity. No doubt we shall see more of these brims which leave the crown at some unusual point and go wherever they please. Tricornees, some with George Washington brims, and some in the beret style, are patriotic contributions to chic millinery modes.

HAT materials are as interesting as hat styles, primarily because each hat is selected now to suit an individual costume. Dress fabrics are used extensively, the soft woolen ones such as rabbit's hair cloth being a favorite for sport. More velvet hats have been sold in St. Louis this season than for several years. The velvets that are used for hats now are very soft and pliable, therefore being adaptable to the fitted lines so universally demanded. Broadcloth is another good hat material even though this fabric has not lived up to its expected revival for dresses and coats. Milliners explain that broadcloth can be manipulated more easily than most felts but looks enough like a good quality

felt to serve admirably for hats. Satin is a promising material. Metal trimming is ahead of all competitors. But feathers fly their colors loyally. Fur also meets with Victorian approval. Some smart hats have entire crowns of white ermine, one at the left side and one at the back of the hat. These give the appearance of fastening the hat sections together, as there are three slashes instead of the customary one.

The hat with the veil is a draped velvet turban, which makes little more than an "ink spot" on the head. The veil has a metallic border to add to its bid for chic, and flares slightly.

Plaid velvet combining beige, brown, yellow and red is the unique material of the hat sketched in the circle. It has a soft brim at the back and a front draped section, the drap held in place by twin combs.

The group of three hats at the lower right corner includes a brown felt sailor with feather tips in such brilliant shades as yellow, orange and green; a tricorne beret of black felt painted in a plaid design, with red and black braid trimming at either side, and a Washington tricorne of brown velvet with tiny wings on either side of its double-corded brim.

garnish with the platter of fried chicken.

shaved quill topping its crown in a Robin Hood manner.

Evening hats often are of velvet and of the style shown in the mirror. The hook-and-eye brilliant ornaments are arresting, two being placed over the right eye, one at the left side and one at the back of the hat. These give the appearance of fastening the hat sections together, as there are three slashes instead of the customary one.

BRIDGE

by P. HAL SIMS

Bids of One May Be Passed.

TO my surprise, I have been requested by several inquirers to say whether or not my opening bids of one are forcing bids which my partner may not pass. Of course, you know very well that such a thing would be entirely in conflict with my theory of bidding. I can only imagine that this misconception has arisen because one can play many hands without either partner being too weak to respond to an opening bid: as you know, we do keep the bidding open on light holdings—but not with hope-less ones. Then again, there may have been some confusion between the opening bid of one and the one-over-one response, which positively does require the partner to bid again.

Try to Foresee Probable Bidding Developments.

Recently my partner opened the bidding with one heart. I held—

His bid: 1 heart
My hand: 11 points
My response: 2 hearts
His line: to bid a no trump would be too misleading as regards my distribution, as I have a two-suit with a singleton. To bid either minor suit might lead my partner to bid spades or no trumps—both these responses would place me in an even worse quandary, as I would be afraid to pass and afraid to bid my other suit at so high a level. On the other hand, my hand would bring two tricks for a heart contract, and it seemed better to pass and risk the loss of a game if the opener's hand was so little short of an opening forcing bid that my heart king and singleton would be all he needed for game. Actually we made one heart, not very easily. Had I bid, my partner would have bid a four-card secondary spade suit, and then we would have landed in three hearts and been down two tricks. Had I held—

Mills Points Out Britain
and France Don't Seem
They Won't Pay—Belgium
Sends Note—Lansing
and Final Problem

By the Associated Press.
WASHINGTON, Nov. 13.—President Hoover, speeding eastward, has an acceptance of his invitation to President-elect Roosevelt to confer with him on a problem of world import—the billions of war debts owed by Europe to the United States and what to do about immediate requested suspension of the Dec. 15 payments. Great Britain and France, have requested re-examination of obligations aggregating more than \$5,000,000,000.

Belgium today also presented debt note to Washington, similar in tenor, it was reported, to that of Britain and France. The Hoover-Roosevelt conference, at an early date to be set, considered as most likely a step in plotting this Government's future action in the international financial controversy and an important prelude to the final decision which rests with Congress. Closely watching developments, legislators already are voicing differing views, but from them is the possibility that Congress may prefer a default of any or all of the \$121,000,000 due from Belgium nations Dec. 15 to a full moratorium pending a debt conference.

This possible default would be the obligation on the books of the present figures, as was an apparent intention of Congress when, in approving the one-year moratorium, it voted overwhelmingly against further reduction or cancellation. World Economic Conditions. Nor have possibilities of a fault been lost sight of by the administration, whose leaders such an occurrence would be world economic conditions adversely. But they came to believe that further aid for our European debtors depended primarily of self-help program for settling currency, armament, tariff and other controversies in a fashion so important as to impress American public thought.

At Lausanne, in July, the debtations accepted a huge reduction in German reparation payments a settlement whose fulfillment, pending upon revision of debts of the United States. Since then, American people have elected President whose platform opposed cancellation.

Presidential Expressions. In expounding that platform, Gov. Roosevelt mentioned Lausanne in a campaign address, saying: "... been brought nearer by the recent results at Lausanne. The danger now is that they may turn a united front against us. The debts will be a problem—we shall not cancel them—if we are ready about providing ways in which it is arising through the rehabilitation of trade."

President Hoover's invitation Gov. Roosevelt reiterated his stand against cancellation and added that "we should be ready to proposals from our debtor nations than direct payments in payment of markets for the products of our labor and farms." Hoover also linked armament reduction with the debt question. In expressing his willingness attend a conference, he preferred "wholly informal and personal." Gov. Roosevelt told President Hoover. He hoped the chief executives would see Democratic congressional leaders "at the earliest opportunity, because, in the last analysis, the immediate question raised the British, French and other nations creates a responsibility upon those now vested executive and legislative authority."

It was one of these Democratic legislators—Chairman Collier of the House Ways and Means committee—who yesterday said
